Sir,

I am directed by the Commander in-Chief, to forward for your information, a Copy of a Letter from Brigadier Cameron, on his recent inspection of the Public Buildings in use with 15th Regiment Native Infantry at Masulipatam, & it is therein recommended, that the Windows of the Hos: pital shall be entirely glazed, to exclude the Sands in this dry weather, and the damps during the Rains. His Excellency thinks the object of Light, combined with Security against either Sand or damps, would be obtained by a portion, say, the upper third part of each Window, being glazed.

Sir,

I have the honor to request you will be

good

good enough to bring to the notice of His Excellency the Commander in Chief, that on inspecting the Public Buildings occupied by the 15th Regiment N.I. I find it most desirable, that the Hospital [No. 43] should be entirely glazed to keep the sand out in dry weather, and damps during the rains, it is found for want of the same, that Medicine cannot be properly prepared in the Dispensary in damp weather.—

The Staff Sergeants Quarters are without any bathing rooms, and I think, that a small portion of the Verandah, at each extremity, may be walled off with a door, that each family may have this very necessary convenience.—
