No. 85. Read the following Extract from the Proceedings of the Chief Engineer, dated 20th July 1857, No. 2197.

Read the following letter from Mr. JOHN BROSNAHAN, Covenanted Overseer; to Colonel C. E. FABER, Chief Engineer, dated 14th July 1857.

SIR,

Fearing that I might be considered troublesome, I have not, until now, ventured to bring myself under your notice, and even now I have great need of, and therefore beg, your kind indulgence.

My present object in addressing you is to bring to your notice the very small sum allowed me for travelling allowance 1½ Rupees per day, and may I indulge in the hope that when you take into account the difficult nature of the travelling I have had to perform, through unexplored and notoriously unhealthy jungles requiring more than an ordinary amount of moral as well as physical energy to sustain one, you will agree with me that this sum falls far short of any thing like fair remuneration.

What I therefore respectfully solicit is, that the travelling allowance of a Sub Engineer be allowed me, and may I beg to add that for this or any other consideration you may think fit to bestow on me you shall have increased exertion on my part and in all cases my very humble but most unfeigned thanks.

Resolved to forward copy of the foregoing letter to Government; with the Chief Engineer's recommendation, that Mr. Brosnahan's application to be permitted to draw the travelling allowances of a Sub Engineer, be complied with, on the ground of his superior qualifications; and the express terms of his Covenant with the Honorable East India Company which secure to him his bonâ fide expences whilst travelling on public duty.

(Signed) C. E. FABER, Colonel,
Chief Engineer.

No. 86. ORDER THEREON, No. 1447; dated 28th July 1857.

The Government remark that Mr. Overseer Brosnahan claims a higher rate of travelling allowance than properly is payable to Officers in his grade of the Establishment, on the ground of the great moral as well as physical energy required to travel in the limits within which his duties have been performed.

2. The Chief Engineer in forwarding the claim recommends it, on the ground that Mr. Overseer Brosnahan's bonâ fide travelling expences were guaranteed to him by the Honorable Court.

3. The Overseer's claim and the Chief Engineer's recommendation are therefore based on different grounds, and before passing orders on the question, Government desire that Mr. Brosnahan may be requested to state whether the travelling allowance he has hitherto drawn has equalled his expences.

(Signed) H. FORBES,
Acting Secretary to Government.
