Fort Saint George, Public Works Consultation of 26th May 1857.

No. 25. Read the following Extract from the Minutes of Consultation in the Ecclesiastical Department, dated 15th April 1857, No. 167.

Read again letter from the Venerable the Archdeacon, dated 29th January 1857.

Read also the following letter from the Collector of Vizagapatam.

(Here enter 16th March 1857, No. 153.)

From the foregoing letter from the Collector of Vizagapatam, it appears that the whole of the Church compound belongs to Government, and that the long room built upon it, and used by the Chaplain occasionally as his residence, as well as for parochial purposes, is also Government property.

2. The matter seems to have been fully considered by the Collector, and the arrangements proposed by him in para. 9 for the protection of the Church compound and prevention of nuisances appear to be judicious. The Right Honorable the Governor in Council therefore directs that the stables on the North East of the Church compound be removed, as well as the Pound; that the wall be erected on the inner side of the stone drain, as contemplated in Extract Minutes of Consultation 24th January last, No. 44; that the vacant ground between the proposed wall and the native huts to the north of it be made over to Messieurs Hoffland and Grant, on condition that it remain a public path as at present, and on their building a wall so as to prevent the further encroachment of the natives; and that the present entrance to Messieurs Hoffland and Grant's premises, marked A in the sketch submitted, be left open. The transfer of the ground to Messieurs Hoffland and Grant will not however be made until after they have built the wall.
