No. 15. Read the following Extract from the Proceedings of the Chief Engineer, dated 4th December 1857, No. 5703.

Read the following letter from J. SILVER, Esq., Collector of Tinnevely; to Colonel C. E. FABER, Chief Engineer, dated Tinnevely, 24th November 1857, No. 538.

SIR,

With reference to the resolution of the Central office of Public Works under date the 3rd April 1857, No. 11633, subjoined to Extract from Minutes of Consultation of the 27th March preceding, requesting that all private properties taken up for Public purposes, for which compensation has not yet been afforded to the lawful proprietors, may be immediately reported upon, with a Schedule shewing areas and proposed prices, for adjustment, I have the honor to inform you that 12 persons, the ryots of Nachiarcoil in the Cusbah of Streevillypootoor Talook having complained in 1856, that a portion of their wet and dry lands under Rajacoolaramapairy tank in the above Talook had been appropriated for the Trunk Cotton Road constructed between Streevillypootoor and Shevacausey, the Tahsildar was directed to investigate their complaint, and after making the necessary arrangements with them, to report the result to me.

2. The Tahsildar reports that the total extent of land taken for the Road in question, measures 1-19- $\frac{1}{4}$ Cottahs of wet and $\frac{3}{4}$ Chains of dry land, that 15 Maricals and 3 measures of arable waste land lying approximately with the complainant's lands had been granted to them in lieu of a portion of their wet land, taken for the road in question, and that as regards the remaining extent of wet and dry land noted in the margin the owners are willing to accept Rupees 94-5-2 which has been ascertained to be the fair value of the land in question.

3. A Schedule shewing the areas and prices of land taken for the road in this District is enclosed.

4. Under the above circumstances and as there is a saving of Rupees 4,684-6 on the estimate for the whole Cotton Road, I request you will furnish me with the necessary sanction for the disbursement of Rupees 94-5-2, abovementioned as compensation to the lawful proprietors of the lands in question.

5. I have further the honor to report that the ryots of Pudmanary in the Nangoonary Talook in a deposition given by them before the Tahsildar, in reply to a question put to them consequent on a reference made to the Tahsildar from the Huzzoor, on the receipt of the resolution under acknowledgment, have stated that 1-3-1 $\frac{3}{4}$ Cottahs of cultivable wet land and 2-9-7 $\frac{1}{4}$ Cottahs of waste land valued at Rupees 569-14-6 were taken in 1853 for the construction of the road No. 10 from Tencausey via Umbasamoodrum and Calacaud to Junction with road No. 4 at Panagody and that as the members of the Engineer Department to whom they complained, promised to give them the value of their lands, they remained silent up to this time without preferring their claims for compensation.

6. It is true that a portion of their lands was taken for the formation of the above Road and a Schedule shewing the area and value proposed to be given for the same will be forwarded afterwards.

Resolved to forward to Government copy of the foregoing letter No. 538 dated 24th November 1857, from the Collector of Tinnevely and to recommend the grant of Rupees (94-5-2) ninety-four annas five, and pice two, in compensation for 1-5. of land taken up for the construction of the Trunk Cotton road, payable out of the balance of the estimate of Rupees 4,684-6.
