Fort Saint George, Public Works Consultation of 8th January 1858.

No. 29. Read the following letter from Colonel C. E. FABER, Chief Engineer ; to H. FORBES, Esq., Acting Secretary to Government, dated 12th November 1857, No. 5161.

SIR,

I have the honor to submit herewith, an original letter from the Acting Collector of Masulipatam, dated the 27th Ultimo, with its accompaniment, and to request, the orders of Government on the following points.

2. The sum of Rupees (32-11) thirty-two, and annas eleven, is stated to have been retrenched by the Civil Auditor from the Collector's Accounts, on account of expenditure incurred in August 1854, in making a road within the Cutcherry Compound from the rents derived by Grazing Cattle in the Compound of the Cutcherry. The Collector would appear to have entered this sum as a charge to the state, which makes the special sanction of Government necessary to its admission in account, which would have been avoided if he had kept, the sum realized in a Deposit account, against which the expenditure incurred could have been charged. I beg under the circumstances explained to request the sanction of Government to the admission of the charge in question in the books of the Collector, as it is believed that the sum realized has been duly brought to the credit of Government.

3. In connection with the foregoing subject I beg to recommend that all collections of the nature referred to above, which may have been made by Collectors from the 1st May last, under the G. O. of the 8th March 1853, No. 51, and in accordance with Circular Instructions of the late Board of P. W. dated the 27th June 1853, a copy of which is enclosed, be credited in the accounts of Collectors to the head Local Funds under the minor head of "Grass Lands," and be disposed of in the manner directed in the Rules passed for the regulation of local Ferry and other Funds. Similar collections which are now made by Officers Commanding stations under the abovementioned G. O. and of which Half yearly, and in some cases quarterly Accounts Current are rendered to the Central office, in continuation of those which were rendered to the Military Board, may be similarly paid into the nearest Collector's Treasury, and in the cases of collections in Mysore and Secunderabad into the pay Office Treasuries. The appropriation of these funds may still be ruled under the instructions in the G. O. G. in question. Disbursements being made by Collectors and Paymasters by means of Drafts to be drawn on them, and charged to the head Local Funds, an annual Account Current thereof being submitted by the Officers who make the collections and incur the charges to the Collectors, and Paymasters to whom the Funds are remitted to be incorporated in their annual Accounts Current and Reports to be furnished by them in accordance with the Rules for Local Funds. The receipt and expenditure from the Grass Lands in the provinces will thus appear in the books of the Central office, in the same manner that Grass Lands Collections and charges at the Presidency will appear therein in accordance with the directions in Extract Minutes of Consultation of the 23rd January 1857, No. 173.
