No. 68. Read the following Extract from the Proceedings of the Board of Revenue, dated 4th June 1857, No. 1908.

In Consultation 4th June 1857.

Read letter from the Acting Collector of Madras, dated 24th April 1857, reporting on the spot of Ground near the Friend-in-Need Society's work shop proposed by the Chief Engineer to be converted into a Wood yard.

(Here enter No. 52.)

In accordance with the instructions of Government the Board communicated para. 3 of Extract Minutes Consultation No. 2318 Public Works Department (Public) dated 16th December 1856, to the Collector of Madrasfor report on the suggestion of the Chief Engineer to sub-divide and rent out the spot of Ground near the Friend in Need Society's work shop for the purpose of storing Wood.

Dated 22nd January in Consultation 12th March 1857.

Proceeding to Collector 12th March 1857.

2. Mr. Cunliffe in his reply mistook the site alluded to by Government and reported on the slip of land along the west wall of the town between the Basin and Elephant Bridge. A second reference was made in consequence and the Acting Collector's report is now laid before Government.

3. From the copy of correspondence between Mr. Cochrane and the Secretary Friend-in Need Society, which forms an enclosure to Mr. Cochrane's letter, the Board learn that the spot of Ground contiguous to the Friend-in-Need Society's work shop was made over by Government to that Society in 1846 or 1847, and that a subsequent application for it by the Reverend Mr. Page for the erection of a Church, was declined in consequence.

4. The Society contemplate the erection of an Industrial School House on the portion of Ground not yet made use of, and Mr. Cochrane agrees with the Secretary to the Society that the conversion of any portion of the limited space available into a wood yard would be very undesirable to the Society.

5. Under these circumstances the Board would not support the Chief Engineer's suggestion.

No. 69. ORDER THEREON, No. 1265; dated 29th June 1857.

The Board of Revenue submit the report required in para. 3 of Minutes Consultation dated 16th December 1856 No. 2318, about the spot of ground to the west of the Friend-in-Need Society's work shop, proposed to be converted into a wood depot. The Acting Collector of Madras states that the ground in question was made over by Government to the Society alluded to, under the authority conveyed in Extract Minutes Consultation dated 30th September 1847, No. 904, Public Department, and that a subsequent application for it by the Reverend Mr. Page for the erection of a Church, was declined in consequence. The Society moreover informed Mr. Cochrane that they contemplate building an Industrial School for pauper children on the spot. The Board therefore decline to support the suggestion to create a wood depot at that place.

2. Under these circumstances, and as the land was transferred to the Society by the order of September 1847, in unreserved terms; the Right Honorable the Governor in Council thinks it unadvisable to take the spot in question for a wood depot, but he is not inclined altogether to lose sight of the suggestion to provide a depot somewhere in the neighbourhood for the convenience of the large population of that part of the Town. The Collector of Madras will therefore be desired to select, in communication with the Municipal Commissioners, some other convenient spot on either side of the river for the purpose in question.
