Fort Saint George, Public Works Consultation of 7th July 1857.

No. 47. Read the following Extract from the Minutes of Consultation in the Public Department, dated 26th June 1857, No. 849.

Read the following letter from Colonel J. C. BOULDERSON, Commissioner of Police; to E. MALTBY, Esq., Acting Chief Secretary to Government, Fort Saint George, dated 22nd June 1857, No. 64.

SIR,

With reference to the Extract from Minutes of Consultation, No. 727, date and subject as per margin, I have the honor to report for the information of Government that the Engineers can procure sand and clay elsewhere, and that being the case, I do not see the necessity of digging deep holes on the esplanades. If the practice is continued the esplanades cannot be kept in proper order; moreover for one cart of sand or clay removed by the Engineers, for their own use, it is most likely that two or more would be removed for private purposes. It was only a few weeks ago that a person using the name of one of an Engineer Officer, removed sand for the building of the Doveton College.

Dated 6th June 1857.
Referring for the report of the Commissioner of Police a letter from the Chief Engineer, upon the subject of procuring clay for the repairs of the roads inside Fort Saint George.

Ordered to be communicated to the Department of Public Works, in reference to Extract Minutes Consultation, dated 2nd Instant, No. 1051.

(True Extract and Copy.)

(Signed) E. MALTBY,
Acting Chief Secretary.

No. 48. ORDER THEREON, No. 1298; dated 7th July 1857.

Ordered to be communicated to the Chief Engineer with reference to his letter, dated 29th May 1857, No. 760.

(Signed) H. FORBES,
Acting Secretary to Government.
