Fort Saint George, Public Works Consultation of 13th July 1858.

No. 52. Read the following Extract from the Proceedings of the Board of Revenue, dated 19th June 1858, No. 2136.

Read letter from the Collector of Nellore, dated 16th June 1858, In Con, 19th June 1858. submitting Statement of Marammut expenditure during the past five years, and bringing to the Board's notice the utterly inadequate amount allotted for the irrigation repairs of the District.

[Here enter No. 95.]

Resolved that the foregoing letter be forwarded without delay for the consideration and orders of Government. The Board give Mr. Elton's application their decided support. The state in which the irrigation of the district would be left under the reduced expenditure which the Chief Engineer proposes to enter in the Budget, will involve serious loss both to Government and the people, nor can the Board conceive any undertaking calling more urgently for an adequate outlay of public money.
