Fort Saint George, Public Works Consultation of 13th July 1858.

No. 56. Read the following letter from Major E. LAWFORD, Superintending Engineer Southern Circle in charge of Central Office Public Works; to W. H. BAYLEY, Esq., Acting Secretary to Government, dated 23rd June 1858, No. 1365.

SIR,

In forwarding for early submission to Government an estimate amounting to Rupees (2,400) two thousand and four hundred, for extending the water way at the Weyacondaun Calingulah at

Pootoor in Trichinopoly, I have the honor to state that the work is urgently required for the prevention of breaches in the channel, and the security of the Revenue, and to beg that immediate sanction may be granted for the execution of the same.

Enclosure 2.

Extract from a letter from the District Engineer of Trichinopoly, No. 111 dated 14th May 1858.

I have the honor to report, in continuation of my despatch dated 7th Instant, that as soon as the subsidence of the floods enabled me to do so, I examined the Wyacondaun bank to the west of the Pootoor Calingulas and the Calingulas themselves. The latter are not materially injured, the west wing-wall had evidently been in great danger but escaped, the flood passing over the crown of Calingula had topped the side wing-wall and passing over it had cut away a deep hole in rear, the wall however stood west of the Calingula, about half a mile are two very extensive breaches in an old bend of the channel, and opposite the Calingula in the South bank is a deep and very serious breach, there is also a breach which I have not had an opportunity of inspecting in the Moolie Curumboor limits.

(Signed) J. G. RYVES, Lieutenant,
District Engineer Trichinopoly.

No. 57. ORDER THEREON, No. 1327; dated 10th July 1858.

The Right Honorable the Governor in Council sanctions on emergency, the estimate submitted with the above letter, amounting to Rupees (2,400) two thousand and four hundred, for extending the water-way at the Weyacondaun Calingulah at Pootoor in the Trichinopoly District. This work, it is observed, is stated to be urgently required "for the prevention of breaches in the Channel and the security of the Revenue."

(Signed) T. PYCROFT,
Chief Secretary.

Extract from letter from the Dis-
trict Engineer of Trichinopoly.

No. III dated 14th Feb. 1858.

Since the last report, in con-
sequence of our repeated labors & the
aid of the rain, the as soon as the subsidence
of the flood enabled me to do so, I
revisited the Muraudam bank to
the west of the Pottor Calingula and
the Calingula themselves. The latter
are not materially injured. The
west wing wall had evidently
been in great danger but escaped
the flood passing over the crown of
Calingula had stopped the side wing
wall and passing over it had cut away
a deep hole in rear, the wall however
stood west of the Calingula, about half
a mile are two very extensive breaches
in an old bend of the channel, and
opposite the Calingula in the south bank
is
