No. 81. Read the following Extract Minutes of Consultation in the Financial (Railway) Department, dated 1st July 1858, No. 364.

Observe, that in the observations lately made by Government, it was never intended to impute to the Officiating Consulting Engineer for Railways any intentional indifference to the condition of the roads leading to the Gooriattum station. Direct that orders be passed in the D. P. W. for furnishing the Consulting Engineer with all reports on lines of road connected with the Railway.

(Vide Financial Railway Consultation of 2nd July 1858, No. 52-53.)

No. 82. ORDER THEREON, No. 1339; dated 12th July 1858.

Resolved that the Officiating Chief Engineer be requested to furnish the Officiating Consulting Engineer for Railways, with copies of all reports on lines of road connected with the Railway.

(Signed) T. PYCROFT,
Chief Secretary.

FINANCIAL RAILWAY DEPARTMENT.

No. 364.

Extract from the Minutes of Consultation under date the 1st July 1858.

Read letter from the Officiating Consulting Engineer for Railways.

States that he has observed in the Spectator News-paper of the 17th June an Order of Government relating to the state of the Road between Goriattum and Palmanair. Offers certain remarks thereon.

(Dated 17th June 1858, No. 169.)

It was by no means designed by Government in their observations of the 11th Ultimo, to impute to the Officiating Consulting Engineer for Railways any intentional indifference to the condition of the roads leading to the Goriattum Station. They could not however but regret that that Officer had trusted entirely to the reports of the Officers in the Public Works Department and had not himself ascertained by personal inspection what the state of the communication really was. The late order of Government will however have informed him what Government expect from the Consulting Engineer in this respect for the future.

Extract Minutes of Consultation, Public Works Department, 11th June 1858, Para: 22.

2. Orders will be passed in the Department Public Works for furnishing the Consulting Engineer with copies of all reports on lines of road connected with the Railway.

(True Extract.)
