G.O. No.	1304	Press Mis.
Dated	13-7-	18

Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 13th July 1858.

No. 91. Read the following letter from Major E. LAWFORD, Superintending Engineer Southern Circle in charge of the Central Office of P. W. ; to W. H. BAYLEY, Esq., Acting Secretary to Government, dated 21st June 1858, No. 1313.

SIR,

* Nos. 319 and 320, dated 15th June 1858. No. 1312, dated 21st June 1858, from Superintending Engineer Southern Circle.
† Sanctioned in Extract Minutes Consultation No. 2087, dated 10th November 1857.

In forwarding for the information of Government the accompanying copies of correspondence* with the District Engineer of Trichinopoly, I have the honor to solicit the grant of the superior allowance † of 100 Rupees per mensem to Overseer Bateman while in charge of the 1st Executive range of that District lately held by Captain Crewe, and the confirmations of my

Proceedings in regard to the establishment, necessary for the conduct of the public business.

Letter from Lieutenant J. G. RYVES, District Engineer, Trichinopoly ; to Colonel C. E. FABER, Chief Engineer, dated Trichinopoly, 15th June 1858, No. 319.

SIR,

Adverting to my letter No. 283, dated 10th Instant, reporting the arrangements I proposed temporarily on the resignation of Captain Crewe, I have the honor to report that I have now placed Mr. Bateman in complete charge of the 1st Circle including the Military buildings executive. I believe that Overseer Bateman is fully qualified for and in every way equal to the duties of this charge and I now have the honor to recommend that it be made a permanent and not as before proposed a mere temporary charge.

2. An addition to the strength of the lower Subordinate establishment is required, but I would deprecate another transfer of charge which have during the last year been so frequent in the 1st Circle, another Assistant Overseer, one more 1st Class and 2 more 2nd Class Sub Overseers if well qualified, experienced men, and able to keep accounts and speak and understand English would enable me to provide for the efficient execution of the Public Works at present in prospect.

3. I request that I may be informed whether the nomination of Mr. Bateman to the executive charge of the 1st Circle meet your approval as a permanent arrangement.

From Lieutenant J. G. RYVES, District Engineer, Trichinopoly ; to Colonel C. E. FABER, Chief Engineer, dated Trichinopoly, 15th June 1858, No. 320.

SIR,

Adverting to Captain Crewe's resignation, I have the honor to inform you that I am continuing to employ on the office duties of the 1st Circle, the office establishment of 3rd Class Executive Engineer which was attached to that Circle while it was under Captain Crewe's charge, and I request that permission to continue that office establishment may be accorded to me and communicated to the Civil Auditor.

From Major E. LAWFORD, Superintending Engineer Southern Circle ; to Lieutenant J. G. RYVES, District Engineer Trichinopoly, dated 21st June 1858, No. 1312.

SIR,

With reference to your letters marginally noted* I am directed to convey to you the approval of the Officers in charge of the Central Office of your filling the 1st Executive Range by placing Overseer Bateman in charge of the same, but Major Lawford cannot take on himself to assure you of the permanence of the arrangement.

2. Major Lawford has applied to Government for the services of an Officer for the charge of Military buildings at Trichinopoly which he proposes, if possible, to separate from that of the Civil works during the present season or until the public exigency shall be diminished.

Fort Saint George, Public Works Consultation of 13th July 1858.

3. With respect to the establishment, Major Lawford possesses no authority to retain that of a 3rd Class Executive Engineer, but seeing that the accounts cannot be properly kept by the establishment of an Overseer, he is willing to accept the responsibility of ordering the employment of such persons as you deem absolutely necessary for the public service, whose salaries must be charged to the estimates.

No. 92.

ORDER THEREON, No. 1344 dated 13th July 1858.

1. The Superintending Engineer of the Southern Circle in charge of the Central Office solicits "the grant of the superior allowance of Rupees 100 per mensem to Overseer Bateman while in charge of the 1st Executive range of the Trichinopoly District held by Captain Crewe," and the "confirmation of his proceedings in regard to the establishment necessary for the conduct of the public business."

2. As regards the first part of this application which refers to the grant of the additional allowance permitted by the orders of the Government of India "to Officers of the upper subordinate establishment whilst Officiating in Engineering appointments," the Government have in a separate resolution recorded their views at length on the subject generally, and they would refer Major Lawford to that resolution for a decision of the question. They would merely observe in this place, that Mr. Tuke has been appointed third class Executive Engineer in the room of Captain Crewe, and that the arrangement affords no means of granting the additional allowance applied for, on behalf of Overseer Bateman.

3. With respect to the second part of the application, the Government would wish to have more explicit information as to the proceedings which Major Lawford desires to have confirmed. They gather from the correspondence that the Superintending Engineer has permitted the employment of extra servants, and has authorized their being paid out of the estimates, but no particulars are given as to the urgency or even necessity of the measure, or as to the strength of the proposed establishment, the probable period for which it may be required, and its cost; and in the absence of such information, the Government are not prepared to recognize the proceeding. Their views as to the practice of charging the pay of servants to estimates, has been communicated in para. 3 of Extract Minutes Consultation 22nd May 1858, No. 970.
