No. 86. Ordered in consequence that the following letter be despatched.

From H. FORBES, Esq., Acting Secretary to Government of Fort Saint George; to Lieutenant Colonel W. E. BAKER, Secretary to the Government of India, dated 14th July 1857, No. 1350.

SIR,

With reference to Extract from the Proceedings of the Government of India, in the Financial Department, dated 19th December 1856, No. 5554, I am directed by the Right Honorable the Governor in Council to forward a Return shewing the items of decrease which have occurred during the months of March and April 1857, in temporary and permanent establishments in the Department of Public Works.

2. The return, I am desired to state, is in some measure still imperfect, as the Government of India, will observe from the accompanying letter. To secure regularity in the receipt of future Returns of decrease from the Provinces, the Chief Engineer has issued a Circular to all the Officers of the Department, requesting the submission of these Statements monthly and the Governor in Council hopes that by this measure the return to be submitted in the ensuing month will be complete.

Circular. No. XLVI of 1857/58.

Extract from the Proceedings of the Chief Engineer,

Under date the 24th June, 1857

Read the following:

From the Civil Architect

Statement showing decreases effected in establishments permanent and temporary during the months of March and April, 1857.— (A.E. 15th June, 1857)

The Chief Engineer regrets to observe the great delay that has taken place in the submission of the above document, and although no decreases have taken place in the establishment during the months of March and April last, the above blank return, which might have been dated and despatched before the 5th May, was not received in the Central Office, until the 18th of June.— Colonel Faber has frequently pointed out to the Officers of the Department the advisability of drawing up a List of the periodical papers to be submitted by them, and of their timely transmission to this Office, but he regrets that there should still be so great a want of regularity on the part of several Officers in attending to instructions.—

Resolved therefore, that the statements shewing decreases effected in Establishments as called for in Extract from the Minutes of Consultation, No. 246, of the 3rd February last.

lie

be hereafter forwarded monthly to the Central Office.

and that the District Engineers, Supt. E.C. Canal, Civil Architect, and Garrison Engineer be informed that in the future submission of the General Returns to Government, every instance of default will be brought to the prominent notice of the Right Hon'ble the Governor in Council.-
