No. 99. Read the following letter from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 6th July 1857, No. 1813.

SIR,

In Extract Minutes of Consultation, No. 2009, dated 30th October 1856, Government sanctioned an estimate of Rupees (2,410) two thousand, four hundred and ten, for constructing an Engineer Office and yard, at Kurnool, and the same forms item No. 192, in statement No. 2, of the Current Budget.

2. The above estimate which provided for constructing the building with stone in clay, was submitted to Government with my reports, No. 5436, 1st August 1856, subsequently in Extract Minutes of Consultation No. 1848, dated 10th October 1856, Government directed, that such buildings were to be permanently built, using mortar instead of clay.

3. The order of Government was circulated to the Officers of the Department, with Extract from Proceedings No. 7259, dated 15th October 1856, and the District Engineer of Kurnool, with his letter No. 453, dated 11th June, now submits a revised estimate of Rupees (3,210) three thousand, two hundred and ten, for constructing the building with stone in chunam, instead of, with stone in clay.

4. The estimate is framed on moderate and sufficient data, and I have the honor to recommend its substitution for the one already sanctioned, the additional expenditure for which authority is solicited being Rupees (800) eight hundred, which might come out of the three lac fund, for supplementary charges on such estimates or isolated works.

No. 100. ORDER THEREON, No. 1454; dated 28th July 1857.

In Extract Minutes Consultation of the 30th October 1856, No. 2009, the Government sanctioned for entry in the Budget of 1857-58, an estimate of Rupees 2,410 for the construction of an Engineer's Office and Yard in the Kurnool District. This estimate provided for the use of stone in clay, but with reference to the opinion expressed by Government in para. 1 of Extract Minutes Consultation of the 10th Idem No. 1848, the Chief Engineer forwards with his letter above recorded a revised estimate for constructing the building with stone in chunam. Provision is also made in this document for a Magazine, a work not included in the former estimate, but the circumstance is not mentioned as it should have been, in the Chief Engineer's letter. The sum required for this building being however very small, viz. Rupees 210, the Right Honorable the Governor in Council will not withhold his sanction to the estimate forwarded by the Chief Engineer amounting to Rupees (3,210) three thousand, two hundred and ten, which will be included in the Budget for 1858-59. The sanction granted to the estimate of Rupees 2,410 above referred to will now be considered cancelled.

2. The Government observe that the estimate submitted on the present occasion is a detailed, instead of an abstract one, and they therefore request the Chief Engineer's attention to the several orders which require the submission of abstract estimates to Government.

(Signed) H. FORBES,
Acting Secretary to Government.
