Fort Saint George, Public Works Consultation of 4th August 1857.

No. 5. Extract from the Minutes Consultation in the Public Works Department, dated 29th July 1857, No. 1466.

In considering the alterations to the Penitentiary now in progress, it has occurred to the Government that the safe custody of the Prisoners will be difficult if the guard be not able, from an eminence, to overlook the whole length of the surrounding wall, the Chief Engineer will therefore be requested to communicate with the Civil Architect upon the subject, and to obtain and submit to Government plans and estimates for flanking towers, either built from the ground or projecting from the wall, as may be deemed expedient.
