No. 36. Read the following Extract from a Despatch from the Honorable the Court of Directors, dated 13th May, No. 6 of 1857.

2. to 8. In consequence of representations from the Committee for building the new Church at Nellore, further grants have been sanctioned, making with the original Donation, a total contribution of Rs. 4,000 towards the building. The Church has since been completed at a total cost of Rs. 6,445, for the building (irrespective of the value of convict labour) and of Rs. 1,000 for furniture and fittings.

12. The liberality of the local community, who, in addition to the sum raised for the Church and fittings, have undertaken to provide a House for the Clergyman, to be paid by private means, and to defray the expense of his passage from England, called for liberal consideration from you, and we approve the additional contribution made towards the cost of the Church.

13. We infer from the remarks of Captain Boileau, that in forming his Estimate of the relative cost of the substantial and the ornamental portions of the Church, with reference to the existing rule for apportioning the cost of new Churches between Government and private Subscribers, he acted under a misapprehension of our meaning. We had to call your attention to this subject in our Despatch of the 16th January, (No. 1) 1856, and the remarks we there made will be sufficient, if duly promulgated, to prevent any similar misunderstanding hereafter.

Read the following Extract Minutes Consultation in the Ecclesiastical Department, dated 14th July 1857, No. 282.

4. These paras. will be communicated to the Lord Bishop and also to the Public Works Department, in continuation of Extract Minutes of Consultation, dated 2nd April 1856, No. 106. in view to the instructions of the Honorable Court referred to in para. 13 being duly promulgated.
