MADRAS RECORD OFFICE.

Government of Madras.

DEPARTMENT

GO No. From Mis.

Dated 19

Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 8th September 1857.

No. 74. Read the following letter from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 25th August 1857, No. 3120.

SIR,

Under clause II of Extract Minutes Consultation No. 696, dated 18th October 1855, I have the honor to submit the accompanying estimate prepared by the Garrison Engineer, for improving three tanks in the vicinity of the Sepoy's lines at Perambore.

2. In Extract Minutes Consultation No. 1515, dated 5th Instant the Garrison Engineer was directed to prepare and submit an estimate for cleansing and deepening 4 tanks in the vicinity of the Sepoy's lines at Perambore, but that Officer states as you will observe from his letter herewith forwarded that the tanks are now half full of water, and that therefore it is too late in the season to deepen them.

3. The Garrison Engineer observes further, that it would prevent cattle and people making improper use of the banks and at the same time keep the water pure and uncontaminated, if three of the tanks were enclosed by a railing.

4. The proposition seems to me to be very desirable, and as the rates allowed in the estimate, amounting to Rupees (272) two hundred and seventy two, are moderate and sufficient, I beg to recommend the same for sanction for immediate execution.

No. 75. ORDER THEREON, No. 1704; dated 8th September 1857.

The Right Honorable the Governor in Council sanctions out of the one lac fund, the estimate of Rupees (272) two hundred and seventy-two, received with the above letter for enclosing with rails three of the four tanks in the vicinity of the Sepoy's Lines at Perambore.

(Signed) H. FORBES,
Acting Secretary to Government.
