Fort Saint George, Public Works Consultation of 29th October 1858.

No. 191. Read the following letter from Lieutenant-Colonel E. LAWFORD, Officiating Chief Engineer; to the Secretary to Government, dated 20th October 1858, No. 4702.

SIR,

With reference to Extract Minutes Consultation No. 2061, dated 6th October 1858, I have the honor to submit for the information of Government copy of Extract from the Proceedings of a meeting of the Municipal Commissioners for the Town of Madras, from which it will be observed, that part of the lands lying between the bridge on the South and Nundaran Choultry to the North, and the Canal on the West, and the old Ennore road on the East, is the most eligible site for the deposit of the rubbish of the Town.

Extract from the Proceedings of a Meeting of the Municipal Commissioners for the Town of Madras, held at their Office in Errah Bauloo Chetty Street, Black Town, on Friday the 15th day of October 1858.

Read Extract from the Proceedings of the Chief Engineer forwarding one from Extract Minutes of Consultation dated 6th Instant, stating that Government wish to be informed to what place it is proposed to convey the sweepings of the Town.

Read report of the Municipal Inspector dated 15th Instant as follows.

I inspected the locality about the first bridge over Cochranes Canal and am of opinion that, that part of the lands lying between the bridge on the South, and Nundaran Choultry to the North, and the Canal on the West, and the old Ennore road on the East, as the most eligible site for the deposit of rubbish.

It possesses the advantage of being a central point where several common roads meet, and the communication may be still further improved, by metalling a partially formed road on the North of the Choultry, which would then connect the Dépôt with the new Ennore road. Its proximity to the Tannah Station is a further advantage. The site that I now suggest, covers an extent of above 10 Cawnies.

The Board approve of the site proposed by the Inspector, and direct the same to be communicated to the Officiating Chief Engineer.

(A true Extract.)

(Signed) P. CARDOZO,

(„) S. KRISHNAMACHARREE,

Municipal Commissioners for the Town of Madras.

No. 192. ORDER THEREON, No. 2292; dated 29th October 1858.

Ordered that the foregoing letter be recorded.

(Signed) W. H. BAYLEY,

Acting Secretary to Government
