No 1823

I. D. A. Forbes Assist. Surgeon in
 Medical Charge of Cantonment of Arcot do
 hereby Certify that J. Dopping Esq Civil
 Engineer North Arcot District is in a bad
 state of health, & solemnly & sincerely
 declare that according to the best of my
 judgment, a change of air is essentially
 necessary to his recovery, & do therefore
 recommend that he may be permitted
 to proceed to Bangalore & the Mithykenah
 for the period of four months.

Proc No. 150

J. Dopping Esq. - Lt
Civil Engineer. N. A. District

Mr Dopping has enjoyed
good health since his
arrival in India with the
exception of the attacks
which have now become
so troublesome.

In July or Augt. 1855
had one attack which,
from his account seems
to have been something
like Coup de Soleil.

On 19th of Feb: came
on the first of those seiz-
ures which have arisen from
their frequency and in-
creased duration he came
so alarming, and, since
that time he has been
affected in this way
four or five times.

When I first saw him
on 10th Augt/58 he was
in a high state of Fever.
Pulse rapid and full, skin
hot & dry, head hot &
throbbing, and altogether
he was very restless.
stated that early in the
morning he had suddenly
become unconscious,

20 Good thing the Civil Engineer

1/52/58

20/10/58

And remained so for
about half an hour. & since
at this time he has
shown symptoms of low
delirium.

Cold applications to
the head were employed
& the room kept dark
& as cool as possible.
In the forenoon some pain

Pel Hgday, p. v
Towards evening he was
much better and next
day went to office, & was
harassed by accounts,
and in the evening was
worse than ever. He again
was very feverish. With
a low delirium, resembling
Delirium Tremens. Pulse
rapid and tremulous, skin
very hot. On this occasion
cold was again applied
to the head a draught

was given and ~~repeated~~

Trick. Op. No. XX
Borax 3i

2d Dose.
was given twice at inter-
vals of two hours. Sleep
was then procured which
continued till next morning.
When, he awoke, he felt
and well. Since then

70

he has continued to keep
himself quiet in his room.
and has not been annoyed
by transacting business.
I consider his illness
to have been caused
by great mental exci-
tation made, in an angry
difficult matter. and
am of opinion that a
period of absolute free-
dom from mental exci-
tation as well as a change
of scene & climate will
alone produce any per-
manent benefit. I there-
fore recommend that he
be permitted to proceed
to Bangor & the Rail
road, & files for the space
of four weeks.
