Mr. John Colonel
Chief Engineer

Altogether

I wish also to explain for the information of Government, that the delay, that has occurred in the submission of the Medical Certificate, is owing to those forwarded by Mr. Bush, not having been prepared in due form, as ordered in the Report. Minutes Consultation above quoted. The J. G. District Engineer, North Street was informed on three different occasions, that the Medical Certificate forwarded by Mr. Bush, were not prepared as directed, or if prepared agreeably to the Unwarranted Advice given, did not include the whole time during which, that gentleman was absent from his duties. It was only on the 21st instant, that the Medical Certificate first received at the head of these Proceedings was received, and it will therefore be observed that no avoidable delay whatever has taken place in the Central Office, in the submission of the Certificate in question to Government.
