

MADRAS RECORD OFFICE.

Government of Madras.

Public Works DEPARTMENT.

Cons dated 9-4-1858

G.O. No.	598	Press Mis.
27-28. Dated	1-4-	1858

Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 9th April 1858.

No. 27. Read the following letter from Colonel C. E. FABER, Chief Engineer ; to H. FORBES, Esq., Acting Secretary to Government, dated 17th March 1858, No. 8191.

SIR,

I have the honor to forward a repair estimate amounting to Rupees (2,500) two thousand and five hundred, for re-building the stone facing and executing other necessary repairs to the Bellary Cusbah Tank.

1 Estimate Rupees 2,500.
1 Letter from District Engineer Bellary, dated 22nd February 1858, No. 399
1 Copy of letter from the Collector of Bellary, dated 15th Feb. 1858, No. 28.

2. The Collector concurs in the necessity of the work, and is of opinion that if the tank is left in its present dilapidated condition, and it burst on the next periodical freshes, the town of Bellary, which is immediately below, would materially suffer from such an accident. He further states that although the tank was never used for irrigation purposes, it has long been the chief receptacle of good water for the use of the town and Garrison of Bellary.

3. Under these circumstances I beg to recommend that sanction be granted for the immediate execution of the work on ordinary estimate from Budget List No. 3 by the District Engineer, the amount of the estimate viz., Rupees (2,500) two thousand and five hundred, to be defrayed, as above stated, from the repair Fund which is sufficient to provide for the work.

4. As the tank does not yield revenue to Government I have deemed it proper to submit the present application for the orders of Government.

Letter from Lieutenant J. F. FISHER, District Engineer of Bellary ; to Colonel C. E. FABER, Chief Engineer, dated 22nd February 1858, No. 399.

SIR,

I have the honor to forward an estimate amounting to Rupees 2,500, for the repairs of the Bellary tank revetment together with copy of a letter from the Collector of Bellary approving of the same and request you will be good enough to sanction the same for immediate execution.

2. I beg to inform you there is no cultivation under this tank.

Letter from C. PELLY, Esq., Collector of Bellary ; to Lieutenant J. F. FISHER, District Engineer of Bellary, dated 15th February 1858, No. 28.

SIR,

With reference to your letter of the 11th Ultimo. No. 1467. I have the honor to express my concurrence in your opinion that a new revetment for the Bellary tank would be desirable. The tank is immediately above the town and would materially injure it should it burst. There is no cultivation allowed under it, as all the water is required for the use of the Town and Garrison.

No. 28. ORDER THEREON, No. 598 ; dated 1st April 1858.

The Right Honorable the Governor in Council authorizes the Chief Engineer to sanction the estimate submitted with the above letter, out of the funds allowed for repairs to Public Works in the Bellary District.

(Signed) H. FORBES,

Acting Secretary to Government.

Central Office of P.W.
 To Mr. John D. George / March 1858
 From the Chief Engineer,
 Public The Secretary to Government,
 P.W. Department

Sir, I have the honor to forward as

Inc. Estimate repair Estimate Amounting to Rupees
 2,500 / Two thousand and five hundred,
 for rebuilding the stone facing and
 executing other necessary repairs to
 the Bellary Cusbah Laan.

1. Estimate
 Rupees 2,500
 1 letter from District
 Engineer Bellary dated
 22nd Feb/58 No. 399.
 1 copy of letter from the
 Collector of Bellary
 of 15 Feb/58 No. 28.

2. The Collector concurs in the
 necessity of the work, and is of opinion
 that if the Laan is left in its present
 dilapidated condition, and it burst
 on the next periodical freshes, the
 town of Bellary, which is imme-
 diately below, would materially suffer
 from such an accident. He further
 states that altho the Laan was
 never used for Irrigation purposes,
 it has long been the Chief receptacle
 of good water for the use of the town
 and Garrison of Bellary.

3. Under these circumstances
 I beg to recommend that Sanctions
 be granted for the immediate execution
 of

of the work on Ordinary Estimate from
Budget List No 3 by the District
Engineer. The Amount of the Estimate
Eight Rupees / 2500 / Two thousand
and five hundred, to be defrayed
as above stated, from the Repair
Fund which is sufficient to pro-
vide for the work.

4. As the Sank does not yield
Revenue to Government I have deemed
it proper to submit the present
Application for the Orders of Government.

I have the honor to be

Sir,
Your most Obedt Servant
