No. 31. Read the following letter from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 4th March 1858, No. 7794.

SIR,

I have the honor to forward for submission to Government, Copy of a letter No. 6 dated 9th February 1858, received from the Collector of Bellary reporting the measures adopted for expediting the preparation of the irrigation Registers.

2. Mr. Pelly represents that through want of a proper establishment he is unable to make that progress which is desirable in the preparation of the returns, and that although he purposes to avail himself of the authority granted in Extract Minutes of Consultation No. 1181, dated 18th June 1857 to employ an additional writer, yet that owing to the weakness of his English establishment, he considers it necessary to solicit sanction for permission to appropriate for a time the salary of his late Translator (whose services he has recently been deprived of) in payment of writers to be especially entertained for the work.

3. Considering therefore the necessity which exists for the early submission of the Registers, the great delay that has already attended their preparation and the circumstances under which the application is made. I beg to submit the same for the favorable consideration of His Lordship in Council, and to recommend that the requisite authority be granted to the Collector of Bellary to temporarily appropriate in the manner he suggests the salary appertaining to the vacant office of translator (viz.) Rupees (70) seventy.

Letter from C. PELLY, Esq., Collector of Bellary ; to Colonel C. E. FABER, Chief Engineer, dated Bellary, 9th February 1858, No. 6.

SIR,

1. In acknowledging the receipt of your Circular No. CLXXVIII dated 1st Instant, with Extract from the Minutes of Consultation dated 29th Ultimo, No. 17, I have the honor to inform you that the Register of Irrigation works of this District is nearly completed. There are 17 Talooks, the rough Registers of 15 Talooks are completed, and 9 are fair copied (one copy,) want of printed forms is delaying the others. The index also has to be made.

2. The 100 printed forms received from your office were quite insufficient for 1080 tanks and 1702 channels in this District, I requested you on the 26th December last, to send a further supply of printed forms, in reply you have intimated to me that they could not be supplied from your office and that the requisite number might be printed in the press under my charge. My Press is so fully worked that it is with difficulty it can meet the demand but I will endeavour to get on with the Register as speedily as possible.

3. Three copies of Register of irrigation works are required viz. one for the Central office, the second for the District Engineer, and the 3rd for this office. My English Establishment is too weak to get through this immense mass of figures quickly and in consequence of the late changes consequent on the work of the Revision of the assessment I have lost the services of my Translator whose place I cannot at once supply. But I purpose employing an additional writer in conformity to the permission contained in the Extract Minutes of Consultation dated 18th June 1857, No. 1181. But I would request you to be so good as to obtain the sanction of Government for allowing me to appropriate the salary of the Translator (which is Rupees 70 per month) and which has not been drawn since 11th January last, in payment of writers especially for this work until the situation of Translator is filled up. By this means I shall hope to complete the 3 copies at an early period and proceed with the new set for the succeeding 5 years.

No. 32. ORDER THEREON, No. 600 ; dated 1st April 1858.

The Right Honorable the Governor in Council authorizes the Collector of Bellary to appropriate the salary of his Translator viz. 70 Rupees a month in the payment of writers' to be employed temporarily for writing the Irrigation Register. The period for which it is intended to make this appropriation is not specified, but the Government presume that the work can be completed within three months with the assistance that may be obtained out of 70 Rupees ; and they accordingly grant sanction for the appropriation of the sum for that period.

(Signed) H. FORBES,

Acting Secretary to Government.

3.
Bellary, Collector's Office
9 February 1858.

No. 6.
From Pelly Esquire
Collector of Bellary.
To Colonel C. E. Laber
Chief Engineer
Madras

Sir, In acknowledging the receipt of your Circular No. CLXXXVIII. dated 1st instant with Extract from the Minutes of Consultations dated 29th ultimo No. 17. I have the honor to inform you that the Register of Irrigation Works of this District is nearly completed. There are 17 Taluk Rs. the rough Registers of 15 Taluk Rs. are completed and 9 are fair copied / one Copy / want of printed forms is delaying the others. The Index also has to be made.

2. The 100 printed forms received from your Office were quite insufficient for 1080 Taluk Rs and 4702 Channels in this District, I requested you on the 25th December last to send a further supply of printed forms, in reply you have intimated to me that they could not be supplied from your Office and that the requisite number might be printed in the press under my charge. My Press is so fully worked that it is with difficulty it can meet the demand but I will endeavour to get on with

with the Register as speedily as possible.
3. - Three Copies of Register of Irrigation
Works are required viz One for the Central
Office, the second for the District Engineer,
and the 3^d for this Office. My English Estab-
lishment is too weak to get through this
immense mass of figures quickly, and in
consequence of the late changes consequent
on the work of the Revision of the Assessment
I have lost the services of my Translator
whose place I cannot at once supply.
But I purpose employing an additional
writer in conformity to the permission
contained in the Extract Minutes of
Consultations dated 18 June 1837 No 1187.
But I would request you to be so good
as to obtain the Sanction of Government
for allowing me to appropriate the salary
of the Translator (which is Rupees 70 per
month) and which has not been drawn
since 11 January last in payment of
writers especially for this work until
the situation of Translator is filled up.
By this means I shall hope to complete
the 3 Copies at an early period and proceed
with the new set for the succeeding 5 years.

I have, &c.
