^{57.} Dated	8-4-	1858.

Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 9th April 1858.

No. 57. Extract from the Minutes of Consultation under date the 8th April 1858, No. 613.

With his letter dated 3rd October last No. 4183 the Chief Engineer submitted several estimates for repairs and improvements to Works of Irrigation in the Chingleput District and in para. 4 of that letter Colonel Faber observed that, of the works proposed, the Collector was of opinion that only three would yield an increase of Revenue; viz. the Velleyoor, Ecaudoo, and Arnee tanks, the other works having been intended to maintain existing Revenue. No estimate had then been submitted for the Ecaudoo tank, and the Government request to be informed whether one has since been received in the Central Office, and if so, how it has been disposed of.

(Signed) H. FORBES,
Acting Secretary to Government.
