No. 40. Letter from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 8th March 1858, No. 7902.

SIR,

I have the honor to forward, for submission to Government, copy of a letter* from Lieutenant Mayne, Executive Engineer 1st Class at Bangalore, respecting the establishment to be allowed him, and as there can be no question as to the necessity of at once rendering the office efficient, I beg to propose that the establishment be fixed on the scale of a second Class District Engineer viz. Rupees (399) Three hundred and ninety nine.

2. In addition to the above however it is necessary to allot to Bangalore a certain proportion of the General Departmental Subordinates, but these must be in excess of the reduced establishment now employed which cannot be further diminished, and I would propose the following to be added to the number now authorized viz.

- 1 Supervisor.
- 1 Assistant Overseer.
- 1 Sub Overseer 1st Class 1st Grade.
- 1 Do. 2nd Class 1st Grade.

3. I do not think that a less number of servants than the above can possibly be maintained or the works at Bangalore consistently with a due regard to expedition, efficiency, and economy of execution.

Letter from Lieutenant J. O. MAYNE, Executive Engineer, Bangalore; to Colonel C. E. FABER, Chief Engineer, dated Bangalore, 15th February 1858, No. 225.

SIR,

I have the honor to request, you will be so good at your earliest convenience to inform me on the following points.

1st. The amount of my pay as 1st Class Executive Engineer Bangalore entered in the Gazette of the 9th Instant, under the Heading "Department Public Works Fort St. George." I referred the point to the Pay Master here, and he, on referring to the Gazettee forming the Department of Public Works Fort St. George, states that as there is no such denomination entered therein, he requires further information on the subject. The denomination therein being District Engineer 1st Class.

2nd. Through whom I draw my pay, as the Pay Master also states he has no authority to disburse my pay as Executive Engineer Bangalore.

3rd. Whether I am to keep the Establishment of a 1st Class Executive Engineer or the old Establishment of a Superintending Engineer. The Pay Master also states he has doubts of his authority for disbursing the pay of the Superintending Engineer's Establishment the appointment of the Superintending Engineer being done away with. I have the honor to request that I may be allowed the Establishment of a 1st Class Executive Engineer and further an Establishment of one Supervisor and two Sub Overseers. A Store keeper is also urgently required as there are a large quantity of stores, and much work going on, in the work yard. The Supervisor is very essential during the construction of the Barracks and afterwards when the heavy works now in hand are completed might be dispensed with. The Sub Overseers, I would suggest, be appointed in lieu of the Bricklayer and Carpenter Maistries now on the permanent Establishment of the Superintending Engineer's office and the same individuals might be appointed as Sub Overseers. I would further point out that at present I have not a single European subordinate and it is very essential that one should always be on the works as I cannot always be present myself during the day. |

Fort Saint George, Public Works Consultation of 20th April 1858.

No. 41. Letter from F. LUSHINGTON, Esq., Civil Auditor; to H. FORBES, Esq., Acting Secretary to Government, dated 17th March 1858, No. 396.

SIR,

With reference to the appointment of Lieutenant J. O. Mayne of the Engineers to be 1st class Executive Engineer at Bangalore vice Major DeButts relieved from the Office of Superintendent Engineer of the Mysore Division under date the 9th Ultimo, I have the honor to solicit the orders of Government whether the allowances of that Officer together with that of his office establishment are to be audited in the Civil or Military Department. During the incumbency of Major Debutts the salary and allowances of that Officer I beg to remark were not subject to the Audit of this Office.

No. 42. Memorandum from Colonel C. E. FABER, Chief Engineer; to H. FORBES, Esq., Acting Secretary to Government, dated 25th March 1858.

The Chief Engineer has the honor, in accordance with the instructions contained in a memo-

randum from the Secretary to Government Public Works Department under date 13th March 1858, to furnish the annexed statement respecting the establishment formerly entertained by the Superintending Engineer Bangalore, and that recommended for the Executive Engineer now in charge of the works at that station, as well as the relative cost at

Cost of Establishment and Executive.

tending the Executive under both arrangements the difference of which it will be observed is 520 Rupees in excess.

No. 43. ORDER THEREON, No. 690; dated 15th April 1858.

Para. 1. The Chief Engineer recommends that the establishment to be allowed to the Executive Engineer at Bangalore be fixed on the scale of that allowed to a second class District Engineer, viz. Rupees 399. He also suggests that a Supervisor and Assistant Supervisor, as well as a Sub Overseer of the 1st, and one of the second class first grade, should be allotted to Bangalore. The salary of the Executive Engineer appointed to Bangalore will be the same as is allowed to a first class Executive Engineer in Bengal, viz. Rupees 600 per mensem, and including the establishment proposed by the Chief Engineer, the total cost of providing for the charge of the Military works at that station would be Rupees 1,314 per mensem.

1 Executive Engineer first class.....	Rs. 600

	399
1 Supervisor of the Military class	120
1 Assistant Supervisor do.	100
1 Overseer 1st class 1st grade	60
1 Do. 2nd do. 1st grade	35
	315
Rupees.....	1,314

Fort Saint George, Public Works Consultation of 20th April 1858.

	Rs.
Staff salary of Superintending Engineer.....	700
Establishment.....	154
Total.....	854

The cost of the Executive Officer and his establishment as previously maintained, amounted to Rupees 854; the proposed charge would therefore be Rupees 460 above the previous expenditure.

2. The Government have given due consideration to the nature and extent of the charge devolving on the Bangalore Executive Engineer as brought to the notice of the Government of India in the letter from this Government, dated 27th February last, No. 335, but they are not prepared to sanction so large an increase as is involved in the Chief Engineer's arrangement, considering, that the duties of the Executive Engineer at Bangalore are different from those ordinarily devolving on District Engineers, being confined entirely to Military buildings without any connection with roads, bridges, or irrigation works; that the preparation of plans and estimates, and the office correspondence generally, will be limited, the Government think that the sum allowed to a District Engineer of the second class for establishment, should suffice for all purposes. The Governor in Council resolves accordingly to sanction a monthly disbursement of Rupees 399 to the Executive Engineer at Bangalore for his office establishment and for an establishment of Supervisors and Overseers, and will leave it to that Officer to make arrangements suited to the exigencies of the service within that amount. The total expenditure will thus be Rupees 999 or Rupees 145 in excess of the previous charge.

3. The salary and allowances of the Executive Engineer and of his establishment will be audited in the Civil Department.

4. Ordered that the above proceeding, be reported for the approval of the Government of India.

(Signed) H. FORBES,
Acting Secretary to Government.

No. 44. Ordered in consequence that the following letter be despatched.

From H. FORBES, Esq., Acting Secretary to the Government of Fort Saint George; to Lieutenant-Colonel R. STRACHEY, Officiating Secretary to the Government of India, D. P. W., dated 15th April 1858, No. 691.

SIR,

Para. 1. With reference to my letter of the 27th February last, No. 335, I am directed by the Governor in Council to forward an Extract from the Minutes of Consultation of Government of this day's date, which will inform the Government of India of the strength and cost of the Establishment allowed to the Executive Engineer at Bangalore.

2. It will be observed that the salary of the Executive Engineer has been fixed at the amount allowed to a First class Executive Engineer in Bengal, viz. 600 Rupees per mensem, and that this Officer has been granted a sum of Rupees 399 monthly being the allowance given to District Engineers of the 2nd Class, to meet the cost of office establishment and Superintending agency. The whole charge amounts to Rupees 999, or Rupees 145 above that previously incurred.

3. The Governor in Council trusts that this proceeding will be approved.

From the Chief Engineer
to the Secy to Govt

should be allotted to Bangalore.

The Salary of the Executive Engineer appointed to Bangalore will be the same as is allowed to a First class Executive Engineer in Bengal Vizt. Rupees 600 per mensem, and including the Establishment proposed by the Chief Engineer the total cost of providing for the charge of the Military works at that station ~~will~~ ^{could} be Rupees 131½ per mensem.

1 Executive Engineer, first class, Rupees. 600.

Establishment for the Vizt.

1 Draftsman ————— 60.

3 Estimate Maker and accountants ————— 135

2 Writers ————— 70

2 Gomastahs ————— 3½

1 Moochy ————— 10

8 Coolies ————— 50 359.

1 Store Keeper ————— 40. 399.

1 Supervisor of the Military, class — 120

1 Assistant Supervisor ————— 100

1 Overseer 1st class 1st grade — 60

1 ————— 2nd class 1st grade — 35 315

Rs. 131½.

The

Staff Salary of Superintending Engineer ————— 700
Establishment ————— 15½
Rupees 85½.

The cost of the Executive Engineer and his establishment as previously maintained, amounted to Rupees 85½; the proposed charge would therefore be Rupees 60 above the previous expenditure.

The Government have given due consideration to the nature and extent of the charge devolving on the Bangalore Executive Engineer as brought to the notice of the Govt. of India in the letter from the Government dated 27 February, last. No. 335, but they are not prepared to sanction so large an increase as is involved in the Chief Engineer's arrangement. Considering that the duties of the Executive Engineer at Bangalore are different from those ordinarily devolving on District Engineers, being confined entirely to Military buildings

buildings without any connection with roads, bridges, or irrigation works; that the preparation of plans and estimates, and the office correspondence generally, will be limited, the Government think that the sum allowed to a District Engineer of the second class for Establishment, should suffice for all purposes. The Governor in Council resolves accordingly to sanction a monthly disbursement of Rupees 300 to the Executive Engineer at Bangalore for his office establishment and for an establishment of supervisors and overseers, and will leave it to that officer to make arrangements suited to the exigencies of the service within that amount. The total expenditure will thus be Rupees 900 or Rupees 1200 in excess

excess of the previous charge.
 3 The salary and allowances of the Executive Engineer and of his establishment will be omitted in the Civil Department.
 4 Ordered that the above proceeding, be reported for the approval of the Government of India, and that the following letter be despatched.

To
 Captain F. Yule.
 Officer Secretary to the Govt of India
