Fort Saint George, Public Works Consultation of 20th April 1858.

No. 83. Read the following Minute by the Right Honorable the President, dated 11th April 1858.

I have been requested by H. E. Sir Henry Ward, K. C. B., Governor of Ceylon to send him if possible the Artificers mentioned in the enclosed Memorandum.

He states "we must pay, whatever is necessary to secure their services which will not be required for more than six months, unless they choose to continue longer in the island. * * * If sent to Galle he will pay their passages and take measures for furthering them to their destination the Batticaloa Irrigation works, in the Western Provinces."

I have mentioned the subject already to the Chief Engineer who thinks there will be no difficulty in supplying the number of Artificers required.

I have therefore directed him to take measures at once for the purpose and beg to propose, that any advances required may be made by order of Government.

(Signed) HARRIS.

Memorandum of Bricklayers wanted from the Madras Presidency to the Batticaloa Works. 30 Bricklayers would be enough, in the proportion of 10 1st Class, 10 2nd Class, 10 3rd Class.

It is very essential that these men understand the method of undersinking wells for foundations in the sandy beds of rivers in the way that was used in building the foundations of the Dams on the Coleroon and other rivers in South India.

3 good Stone Cutters are also required.

The men should be at Batticaloa about 1st May and they could be continually employed till the end of October.
