G.O. No. 712 Press / Mis.

82-86

Dated 17-4-— 1858.

Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 20th April 1858.

No. 85. Read the following letter from Major E. LAWFORD, Superintending Engineer in charge of the Central office of P. W.; to H. FORBES, Esq., Acting Secretary to Government, dated 26th March 1858, No. 8521.

SIR,

With reference to Extract Minutes Consultation, No. 210, dated 6th February 1858, and the Chief Engineer's letter No. 7702, of 27th February 1858, I have the honor to request you will be good enough to suggest to the Right Honorable the Governor in Council, that as the detailed examination of the projects of the Madras Canal and Irrigation Company is no longer required, it is extremely desirable that the services of the six Surveyors sent to Bellary under the orders of the 4th September 1857, No. 1679, should be replaced at the disposal of the Chief Engineer, for the general duties of the Department.

2. There is not one District at present adequately provided with Subordinate Superintendence, and it is impossible any longer to forego the aid of the men placed under Colonel Cottons directions without prejudice to the public service, a result which I am sure that Officer would be the first to deprecate.

No. 86. ORDER THEREON, No. 712; dated 17th April 1858.

The Government observe that the six Surveyors, whose services, it is requested in the above letter, may be replaced at the disposal of the Chief Engineer, were placed under the orders of Colonel Cotton, on the 4th September last, No. 1679, for Surveying the proposed Bellary Canal, a project quite independent of the Irrigation Company's application, and the discontinuance of the detailed examination of the line on account of the latter, does not in any way interfere with the duty on which they were deputed.

(Signed) H. FORBES,
Acting Secretary to Government.
