134-135 Dated	20.4	185

Not to be folded or roughly handled

111

Fort Saint George, Public Works Consultation of 20th April 1858.

No. 134. Read the following letter from the Inspector General of Ordnance and Magazines; to Secretary to Government Military Department, dated 7th April 1858, No. 765.

SIR,

I lately received from the Accountant General, an Invoice of certain *Steam Dredges* shipped by the Honorable Court on the "Godavery"; but, not having been furnished by Government with the usual packing Account or with any previous intimation of their Despatch, I put myself in communication with the Chief Engineer Department Public Works, for whose Department I believed the Dredges were intended, in order to ascertain how they were to be disposed of so as to save time in their transmission by not landing the Dredges, but simply trans-shipping on such Vessel or Vessels as may be bound for the ports where they may require to be landed. The Chief Engineer however informs me, that no instructions have been received from Government and requested that they may be landed, which has been ordered to be done, and the Dredges are being carefully housed in the compound of the Abercrombie Battery. But as Mr. Flockhart the Engineer who is to be in charge of the Dredges has arrived and has just called at my office, I beg to solicit the instructions of Government regarding the disposal of these valuable articles.

2. Mr. Flockhart appears to possess full acquaintance with the working of the Dredges, and has all the necessary instructions for their application.

No. 135. ORDER THEREON, No. 737; dated 20th April 1858.

Resolved that the Inspector General of Ordnance be referred to the order of Government, on the Despatch of the Honorable Court of Directors to the Marine Department, dated 16th February 1858, No. 6.

(Signed) H. FORBES,
Acting Secretary to Government.

From
The Inspector General of Ordnance
and Magazines.

To
The Secretary to Government
Military Department.

Sir,

I lately received from the Accountant General, an Invoice of certain Beam Bridges shipped by the General's Court on the "Godavery", but, not having been furnished by Government with the usual packing Account or with any previous intimation of their despatch, I put myself in communication with the Chief Engineer Department Public Works, for whose Department I believed the Bridges were intended, in order to ascertain how they were to be disposed of, so as to save time in their transhipment by not landing the Bridges, but simply transshipping on such Vessel or Vessels as may be found for the Ports where they may require to be landed.

The

The Chief Engineer however informs me, that
no instructions have been received from
Government and requested that they may
be landed, which has been ordered to be
done, and the Dredges are being carefully
hoisted in the compound of the Mherrentie
Battery. But as Mr. Stockhart, the Engineer
who is to be in charge of the Dredges has
arrived and has just called at my office,
I try to solicit the instructions of Government
regarding the disposal of these valuable articles.

2. Mr. Stockhart appears to possess full
acquaintance with the working of the Dredges
and has all the necessary instructions for
their application.

Inspector Genl's Office,
Fort St. George,
7 April 1858.

Have the honor to be

Sir,

Your most obedt. Servant,

G. Hassan Esqr. Col.

Inspector Genl. of Ordnance
and Magazines.
