Dated	23-4-	1858

Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 27th April 1858.

No. 42. Ordered that the following letter be despatched.

From H. FORBES, Esq., Acting Secretary to the Government of Fort Saint George ; to
Lieutenant-Colonel T. STRACHEY, Officiating Secretary to the Government of
India, D. P. W., dated 23rd April 1858, No. 764.

SIR,

With reference to the orders of the Government of India, communicated in your endorse-
ment No. 2140, dated 12th October 1855, I am directed by the Right Honorable the Governor

Communication.....	Rs. 2,170
Buildings.....	16,900
Total.....	<u>19,070</u>

in Council to submit a Statement shewing the
several works, of which the estimated cost
exceeded in each case a thousand Rupees,
ordered by this Government during the month
of March 1858, for execution on emergency,
to the amount noted in the margin.

Fort Saint George, Public Works Consultation of 27th April 1858.

Rupees, ordered by this Government during the month of March 1858, to be executed on emergency.

Explanation.

The work was considered to be absolutely necessary for the safety of two bridges, which were stated to have been seriously endangered in the past two years by the insufficiency of their waterway to give passage to the water brought down by the rivers. The necessity of the work having been thus apparent, the Government have authorized its immediate execution in order that the bridges may not suffer damage by delay.

This is for raising the Platforms here referred to to a height sufficient to secure them from inundation during such falls of rain as took place in November last, when no less than six lacs of Indian Maunds of Salt were swept away from the Platforms in question, in consequence of their low level. In reporting the occurrence of the disaster both the Collector of Madras and the Chief Engineer strongly urged the immediate execution of the work with a view to guard against the recurrence of similar loss to the State, and the Government deeming it essential, with reference to the constantly increasing demand for Salt, that every precaution should be taken against the supply at the Madras Cotaurs falling short of the demand, sanctioned the execution of the work on emergency.
