

MADRAS RECORD OFFICE.

Government of Madras.

DEPARTMENT

G.O. No.	Proc. No.
Date	Ex. No.

Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 28th September 1858.

No. 126. Read the following letter from Major E. LAWFORD, Officiating Chief Engineer ;
to the Secretary to Government, dated 3rd September 1858 No. 3379.

Sir,

In reply to the order of Government contained in Extract Minutes Consultation No. 1769,
dated 30th August 1858, I have the honor to state that the progress of the Jackatallah Barracks
during the first quarter (ending 31st July 1858) has been much more satisfactory than it was in
the same period of last year.

2. From the state of the buildings however it is evident that in reporting accommodation
to be available for 800 men the Executive Engineer must include that of the temporary Barracks.

3. If I could get the Steam Saw-Machine now in the Arsenal at my disposal transported to
Jackatallah, I have no doubt the progress of the works would be greatly accelerated, but this I am
unable to effect.

No. 127. ORDER THEREON, No. 2008, dated 28th September 1858.

The Government are glad to learn that the progress of the Jackatallah Barracks during the
quarter ending the 31st July last has been satisfactory.

2. In para. 3 of his letter, the Officiating Chief Engineer states that the Steam Saw Machine
is at his disposal in the Arsenal but that he cannot get it transported to Jackatallah. Major
Lawford will be good enough to explain what is the obstacle.

(Signed) T. PYCROFT,
Chief Secretary.

The Off. Chief Engineer

The Secretary to Government

Military

Sir,

In reply to the order of Govern-

ment contained in Ex. Order. Genl.

N^o 1769, dated 30th August 1888, I have

the honor to state that the progress of the

Sanctalla Barracks during the first

quarter ending 31st July 1888 has

been much more satisfactory than it

was in the same period of last year.

2. From the state of the buildings

however it is evident that in reporting

accommodation to be available for 800

men the Quarter Engineer must include

that of the temporary Barracks.

3. If I could get the Steam
Saw Machine now in the Barracks
at

at my disposal, transported to Sachaballa.
There is doubt the progress of the work
would be greatly accelerated, but the same
would be effected.

To Mr. George
Sept 1818
I enclose the letter to be,
Sir,
Yours much obliged Sarah
Lawford Major
of the 1st Regt

To
