Not to be folded or roughly handled

5-38

No. 32. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer ;
to J. D. BOURDILLON, Esq., Secretary to Government, dated 29th April 1859,
No. 9905.

I have the honor to submit for the information and orders of Government, copy of a letter
from the District Engineer, Kistnah Division, pointing out the
omission from the ensuing official years printed Budget, of the
work described in the margin.

1 Copy of letter from the District En-
gineer Kistnah Division, dated 5th
March 1859, No. 136.
Channel of Irrigation and Navigation
from the Poolairoo near Weyoor to
Mopedavy.

Item No. 218.

2. This work last appeared in Statement No. 2 of the
Budget of 1858-59, but there was no sum proposed for expendi-
ture in that year, as the work was then ordered to be deferred, pending the
receipt of information called for by Government, with respect to an Es-
timate amounting to Rupees 1,66,000 for a modified project.

3. In the manuscript copy of the Budget for 1859-60 submitted by this office, the work in
question was included with a view to the sum remaining out of the original Estimate, less the
amount of saving expected from it, being spent on it as soon as it should be exempted from the
operation of restrictive orders, but the work was left out of the Budget in the Government
Office.

4. In Extract Minutes Consultation, dated 11th March 1858 No. 431, sanctioning the
entry in the Budget of 1859-60 of the Estimate of Rupees 1,45,089-1-1, for diverting a branch
from the Mopedavy Channel from near Nadoocoodroo towards Masulipatam instead of continu-
ing it to Mopedavy, it is noticed that the amount of saving to be effected on the original Estimate
of Rupees 1,49,797, for the Mopedavy Channel is Rupees 48,698, which leaves Rupees 1,01,099
to be appropriated to the first design, or for the part of the Channel above Nadoocoodroo. The
expenditure incurred on account of the work up to date is Rupees 48,433 and the balance re-
quired for completing the Channel to the village of Nadoocoodroo, where the diversion takes
place is Rupees 52,666.

5. As operations will have to be renewed as soon as the state of the finances admits, I re-
quest that the Government will be pleased to authorize the re-entry of the original Mopedavy
Channel project in the Budget of 1860-61.

Letter from Lieutenant O. S. B. CHAMBERS, District Engineer, in charge Kistnah Division ;
to the Chief Engineer, dated Camp Bezoarah 5th March 1859, No. 136.

I beg to bring to your notice that in the Budget for 1859-60 lately forwarded to me, an
item,* namely, the Channel of Irrigation &c., from Poolairoo to Mope-
davy has been omitted from the list of works in the Kistnah Division,
forming a part of the Index and Statement of Budget No. 2, at the same
time minor works pertaining to the same project, namely, Nos. 552 and 450 of the same Budget
have been duly entered.

* Amount of Estimate Ru-
pees 1,49,797.

2. Should this omission have been unintentional, I beg that the item may be restored to
the position it occupied in Budget for 1858-59, it is noted by me in my Budget for the coming
year 1859-60, as a work that should be recommenced immediately funds are available.

No. 33. ORDER THEREON, 6th May 1859, No. 1066.

The Chief Engineer is referred to item No. 12 in Statement No. 1 of the Budget for the
current year, and to the explanation of that project as given at page 12 of the Report on the
Budget. He will observe that this project is entered in supersession of that referred to in his
letter, on the recommendation of the late Chief Engineer.

(Signed) J. D. BOURDILLON,
Secretary to Government.
