*Proceedings of the Madras Government, Public Works Department,
from 1st to 10th June 1859.*

No. 113. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 27th May 1859, No. 978.

I have the honor to report for the information of Government, that Captain Chambers the District Engineer, Kistnah Division, has been instructed to send Overseer Wiffin by dāk to the Pennair Annicut, to take charge as a temporary measure of the quarry under the orders of Mr. Executive Engineer Sage, additional European Agency being absolutely necessary for the efficient prosecution of the work. The Overseer has had considerable experience at the Kistnah Annicut, and has been recommended for the work to which he has now been detached by Captain Orr, the late Superintending Engineer, Northern Circle.

2. I have felt it incumbent upon me to take this measure which will involve an expense to be charged to the Annicut Estimate, as the best security against the heavy risk to the Annicut, which delay in the operations would cause.

No. 114. ORDER THEREON, 7th June 1859, No. 1384.

The Chief Engineer's proceeding reported in this letter is approved.

(Signed) J. D. BOURDILLON,
Secretary to Government.

From The Chief Engineer

To The Secretary to Government
P. W. D.

Sir,
I have the honor to report for the information of Government, that Captain Chambers the District Engineer Feistnah Division has been instructed to send Overseer Wiffin by Boat to the Pennair Annicut, to take charge as a temporary measure of the quarry under the orders of Mr Executive Engineer Page, additional European Agency being absolutely necessary for the efficient prosecution of the work. The Overseer has had considerable experience at the Feistnah Annicut, and has been recommended for the work to which he has now been

been detached by Captain Orr, the late
Superintending Engineer Northern Circle.

2 I have felt it incumbent upon
me to take this measure which will involve
an expense to be charged to the annuit Estimate,
as the best security against the heavy risk
to the annuit, which delay in the operations
would cause.
