1 Letter from the Acting Archdeacon, 30th August 1859.

Referring to the correspondence noted in the margin, I have the honor to forward herewith a letter received from the District Engineer, Godavery Division, submitting one received by him from the Collector of Rajahmundry relative to certain modifications which in his opinion, are necessary in the sanctioned plans for enclosing the burial grounds at Cocanada and Juggernaikpooram.

2. The subject having been referred for the opinion of the Acting Archdeacon of Madras, I beg to submit the Reverend gentleman's reply, from which it will be observed that he agrees with the Collector in the necessity for enlarging the burial ground at Cocanada, but does not see the necessity of making so large an enclosure as that proposed at Juggernaikpooram as far as regards the Protestant burials.

3. The Collector, however, shews that the enclosure, if built as originally proposed, (see dotted lines on the plan) will exclude the ground to the South hitherto made use of by Members of the Roman Catholic persuasion, an arrangement which he considers would be opposed to the Orders of Government of the 3rd May 1849, and, therefore, he recommends that the Eastern and Western walls should be prolonged 100 feet; and also that the new enclosure should extend 50 feet further to the Westward.

4. The latter extension does not appear to me to be necessary, after the opinion expressed by the Acting Archdeacon, but that to the Southward would seem to be in accordance with the intentions of Government, as stated in the Order quoted above, and I therefore recommend so much of the estimate as will provide for this latter portion, viz., Rupees 450.

5. The Acting Archdeacon considers that the dimensions of the plot of ground at Cocanada (140 by 100 feet,) inclusive of the proposed addition to it, are such as to admit of its being easily kept in proper order, and that as, moreover, it appears that the proposed addition will be the only available spot for future burials, the contemplated enlargement is necessary.

6. For the above reason, I beg to recommend that the revised estimate for this work, herewith submitted, which has undergone the usual examination, in this office, may receive the sanction of Government. The estimate in question amounts to Rupees 647, from which Rupees 355, the amount already sanctioned being deducted, a sum of Rupees 292 remains, which requires the sanction of Government.

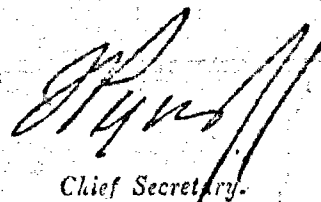

ORDER THEREON, 29th September 1859, No. 330.

On the 15th August 1857, the Government sanctioned estimates, amounting respectively to Rupees 930 and Rupees 355, for enclosing the burial grounds at Juggernaikpooram and Cocanada.

2. The Government agree with the Chief Engineer that the extension to the Westward of the new ground to be added to the Cemetery at Juggernaikpooram is unnecessary. They accordingly sanction so much only of the estimate submitted, as provides for prolonging the Eastern and Western walls 100 feet, at an additional outlay of Rupees (450) four hundred and fifty.

3. They also, sanction the revised estimate for enclosing the portion of ground to be added to the Cemetery at Cocanada, at a cost of Rupees (292) two hundred and ninety two.

4. The amount now sanctioned for the two grounds exceeds, it is observed, that authorized under date the 15th August 1857, by Rupees (742) seven hundred and forty two.
