Not to be folded or roughly handled

No. 36. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 29th September 1859, No. 5571.

I have the honor to submit for the consideration and orders of Government, the accompanying bill for Rupees (180-0-0) one hundred and eighty, being the amount of salary paid to six lascars who were employed by the late Sub-Overseer D. Vencatarutnum during the months of August, September, October, November and December 1858.

2. The Sub-Overseer in question was employed in surveying and levelling connected with the Toongabuddra project under the authority of Government, conveyed in Extract Minutes of Consultation, dated 4th September 1857, No. 1679.

3. The present bill is for the period in excess of the limit prescribed by the Government of India, and the District Engineer of Bellary states in his letter of the 6th October 1858 that "in the case of Sub-Overseer "Vencatarutnum, it will be necessary to entertain extra lascars "for three months from the 1st instant. The channel contoured by him from the Ramsaugur "annicut, though it was successful in passing above the Chicka Toombalum tank towards "Kurnool, was not considered satisfactory from its great length, and I have, therefore, directed "him to trace another line which promises to be more useful and of far less extent."

Vide Extract Minutes of Consultation 7th January 1858 No. 14.

4. Under the above circumstances, and as the amount of the bill has been advanced by the District Engineer from the general funds at his disposal, I request that the sanction of Government may be accorded to the bill with a view to the amount being reimbursed to him.

5. The bill in question was received in this office in February 1859, and requisite reference to the District Engineer for further information connected with it was the cause of its not being earlier submitted to Government.

No. 37. ORDER THEREON, 8th October 1859, No. 2391.

The bill sanctioned.
