Memorandum -

P1. Advice of the engagement of the three Mechanical Engineers referred to in the Civil Auditor's letter, was made to this Government in a despatch dated 19th January 1859. Each of the Engineers made a certain amount payable in England, the first payment commencing on the 7th January 1859. but no advice of this circumstance was given to this Government. The India office made the first communication on the subject to the Bombay Government on the 2nd July, and on the 26th August the Bombay Government advised this Government of the payments, and on the 12th September the Civil Auditor was instructed to make the necessary recoveries.

2. The Engineers arrived here on the _____ and should not have drawn the amount left payable by them in England, but as payments have been made in England without corresponding deductions being made in India, the question is how are they to make good the large amount of arrears which now appears

appears against them.

3 The salary, deductions for payments in England, and the sum due on that account in arrears, are shewn below -

	Salary.	Payments in England	Remainder	Arrears
	R.	R	R.	R
Robert Boyle	166⅔	83⅓	83⅓	666⅔
2 Lt. Walker	125	62½	62½	437½
3. Lt. Clements	83⅓	41⅔	41⅔	333⅓

The Engineers get besides 2 Rupees, 1½ & 1¼ per diem according to class when steam is up, or while employed in repairing machinery; also 22 Rupees Compensation for rations & 25 Rupees House rent.

May the sum be observed in Sept. 1st Estabt? Then will be added the deductions for the 2d Class Rs 37½ for the 3d 2d Class 24; & for the 3d 18½ Rs per month.

83 3/4 3/6

62 2/4 3/6

41 2/3 1/- 1/8 23 1/6

Glenelg

This may do for Clements whose payments in England are to be permanent. But pay & of the other two are only for 7 & 8 months respectively - if so draw the full pay instead of what they might be entitled to.

I am not however sure this is the case
