*Proceedings of the Madras Government, Public Works Department,
from 5th to 21st October 1859.*

No. 101. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer;
to J. D. BOURDILLON, Esq., Secretary to Government, dated 1st October 1859,
No. 5653.

I have the honor to forward herewith a plan with estimate, amounting to Rupees 740, for
the construction of a new sea custom house at
Angarcotta in the Barcur taluq of the
Canara district.

- 1 Letter from District Engr. Canara, dated 11th August
1859, No. 460.
1 Do. from Collector of Canara, dated 29th August 1859,
No. 18.
1 Abstract estimate.
1 Plan.
1 Letter from Superintendent of Marine, dated 22nd Septem-
ber 1859, No. 3806.

2. In submitting the estimate, the Dis-
trict Engineer reported that the present build-
ing is in so dilapidated a condition as to admit

of no repair, that a portion of it has fallen down, and that it is perfectly untenable. The
Collector, whose opinion was sought as to the urgent necessity or otherwise of the proposed
building, states that the present building has long been in a state hardly fit for use and latterly
became so bad, that he has been obliged to put the records in a building belonging to a merchant,
during the monsoon.

3. The work appears, therefore, of an emergent nature, but as under the recent restrictions
on expenditure imposed by the Government of India, I am precluded from recommending it
for immediate execution, I request, therefore, that it may be sanctioned for entry in the next
budget. The estimate has been duly examined and found to be moderate but sufficient, and the
plan of the building is considered well suited for the purpose intended.

No. 102. ORDER THEREON, 12th October 1859, No. 2425.

The estimate of 740 Rupees for the construction of a new sea custom house at Angarcotta
in the Barcur taluq of Canara, is sanctioned for entry in the budget of 1860-61.
