*Proceedings of the Madras Government, Public Works Department,
for the month of November 1859.*

No. 22. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 27th October 1859, No. 6587.

I have the honor, with reference to the order of Government as per margin, to recommend that the District Engineer of Bellary may be appointed one of the Commissioners for the purpose of enquiring into the extent of the interests in Bellary, that would be affected by the construction of the proposed dam across the Haggri river in Mysore, and of determining the provisions necessary for securing those interests against damage, or for compensating them for actual loss.

2. I further recommend that the Commissioners may be allowed to select their time and place of meeting. As it must be in or near the Bellary district, I do not consider it necessary that an officer should act for Captain Fisher. He will probably not find it necessary to give over charge of his district, but should such a necessity occur for a short time, the next senior officer can take charge of it.

No. 23. ORDER THEREON, 2nd November 1859, No. 2577.

In accordance with the recommendation of the Chief Engineer the Government appoint the District Engineer of Bellary to be their Commissioner in the matter of the proposed Mâri Kanvâi tank on the Haggri river.

2. Captain Fisher will be furnished by the Chief Engineer with the necessary papers to enable him to understand the case, and will be instructed to place himself in communication with the officer who may be associated with him in the Commission, on behalf of the Mysore Government.

(Signed) J. D. BOURDILLON,
Secretary to Government.

No. 2578

No. 24. Ordered in consequence that the following letter be dispatched.

From J. D. BOURDILLON, Esq., Secretary to the Government of Fort Saint George; to Lieutenant-General Sir MARK CUBBON, K. C. B., Commissioner for the Government of the Territories of His Highness the Rajah of Mysore, dated 2nd November 1859, No. 2578.

With reference to my letter dated 24th August 1859, No. 2025, communicating a dispatch addressed to the Government of India on the subject of the proposed tank at Mâri Kanvâi in Mysore, and to the reply of that Government, copy of which it is stated was to be furnished to you, I am directed by the Honorable the Governor in Council to intimate that His Excellency has nominated Captain Fisher, District Engineer of Bellary, as Commissioner on the part of this Government, to enquire how far the interests of the Bellary district are likely to be affected by the proposed dam across the Haggri river in Mysore.

2. I am to request that you will be good enough to communicate the name of the officer, who may be appointed by you on behalf of the Mysore Government; and in order to save delay, to suggest that the officer so appointed may be instructed to place himself at once in communication with the District Engineer of Bellary.

Sir,
I have the honor, with reference to the Order of Government as per Memoirs, to recommend that the District Engineer of Bellary may be appointed one of the Commissioners for the purpose of enquiring into the extent of the interests in Bellary that would be affected by the construction of the proposed Dam across the Ruggly River in Mysore, and of determining the provisions necessary for securing those interests against damage, or for compensating them for actual loss.

2. I further recommend that the Commissioners may be allowed to select their time and place of meeting. As it must be in or near the Bellary District I do not consider it necessary that

an Officer should act for Captain Fisher. & will
probably not find it necessary to give over charge of
his District, but should such a necessity occur for
a short time, the next senior Officer can take charge
of it.

Proceedings of the Madras Government
Under date the 2^d September, 1859.

Read the following
letter from the Chief Eng^r

Recommends that
the District Eng^r of Bellary be ap-
pointed one of the Commissioners,
to ascertain the extent of the interests
in Bellary that would be affected by
the proposed dam across the Hagge
river in Mysore.

In accordance with the
recommendation of the Chief
Eng^r the Government appoint
the District Eng^r of Bellary as
one of the Commissioners to en-
quire on behalf of the Gov^t, how
the interests of the Bellary
Hagge river
would be affected
by the proposed dam across the
Hagge river at Kari Kurai in
Mysore.

2. Capt. Fisher will be
