No. 10. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer ;
to J. D. BOURDILLON, Esq., Secretary to Government, dated 7th November 1859,
No. 6988.

In reference to the order of Government noted in the margin, which sanctions the Chief
Engineer of the irrigation company being supplied with certain
scientific instruments on payment as a temporary arrangement ;
I have the honor to forward herewith, a list of machinery which
the Chief Engineer and the Agent of the company are desirous of receiving from the Government
stores on similar terms, and which I submit for the sanction of Government, agreeably to Mr.
Agnew's request in the enclosed letter.

No. 2482, 21st October 1859.
1 Letter with 4 enclosures,
4th November 1859.

2. I append to this letter a list of the stores that can be supplied without inconvenience
by the Department Public Works, and which I recommend the
irrigation company should be required to replace in kind, as sug-
gested in my former letter on this subject.

No. 5883, 8th October 1859.

3. The correspondence of the company's Agent and Chief Engineer does not shew whence
the articles stated as procurable from the Government stores, and which are not in Department
Public Works stores are to be had: but they have probably ascertained that they are available
in the Arsenal.

Chief Engineer on England for machinery, all of which appears very suitable for the works in
prospect, and requisite for carrying them on efficiently.
