G.O. No. <u>2776</u>	Press Mis.
<u>18586</u> Dated <u>30-11-1857</u>	

Not to be folded or roughly handled

*Proceedings of the Madras Government Public Works Department,
for the month of November 1859.*

No. 185. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer;
to J. D. BOURDILLON, Esq., Secretary to Government, dated 19th November 1859,
No. 7435.

I have the honor to forward for submission to Government, and for entry in the budget of
1860-61, a plan and estimate, amounting to Rupees 2,000, for
the construction of additional sheds to the store yard at Nellore.

1 Letter from District Engineer, Nellore, No. 2350, dated 23rd October 1858.
1 Do. from do. No. 2550, dated 28th October 1859.
1 Abstract estimate, and
1 Plan.

2. This estimate was forwarded by Captain Mullins in October 1858, but it was returned to him in consequence of the restriction imposed on the expenditure on public works at that time, and it is now re-submitted as the necessity for additional accommodation has since been increasingly felt.

3. The existing accommodation for the workmen and the machinery is represented to be very limited, and the carpenters and sawyers are said to be exposed to the sun and rain, and consequently cannot work efficiently and with that regularity which is required of them. The demand for work at the workshops appears to be increasing. The value of work performed in the year 1857-58 was Rupees 4,320, and that during the first five months of the following year was Rupees 3,624; and it is said that this latter sum would have nearly been doubled, if only accommodation could have been afforded for additional workmen.

4. As the annicut works, the trunk road, and other works of irrigation are in a great measure dependent upon the workshops for appliances, which cannot be procured elsewhere; the necessity for increased accommodation seems to be of essential importance.

5. The arrangements proposed by the District Engineer for enlarging the workshops meet with my approval, and the estimate for the work, now submitted, having been examined in this office, I beg to recommend it for the sanction of Government, and to request that the same may be entered in the budget of 1860-61.

No. 186. ORDER THEREON, 30th November 1859, No. 2796.

The estimate submitted with this letter is sanctioned for entry in the budget of 1860-61.

(Signed) J. D. BOURDILLON,
Secretary to Government.
