G.O. No. 28 Press Mis.

Dated 9 — 1938.

Not to be folded or roughly handled

No. 56. Read the following letter from Lieutenant-Colonel E. LAWFORD, Officiating Chief Engineer; to the Secretary to Government, dated 14th December 1858, No. 6294.

SIR,

I have the honor herewith to forward for the information of Government the accompanying letter* from the District Engineer of Nellore, giving a more favorable account of the state of the irrigation works in the Survapilly talook than that contained in his report dated the 27th November submitted to Government with my letter No. 5997 of the 6th Instant.

* Dated 30th November 1858, No. 2640.

Letter from Captain JOHN MULLINS, District Engineer, Nellore; to Lieutenant-Colonel E. LAWFORD, Officiating Chief Engineer, dated Camp Venketchellum chuttrum, 30th November 1858, No. 2640.

SIR,

With reference to the 2nd para of my letter No. 2618, dated 27th November 1858, I have the honor to inform you that the Veerana Cawnpore Tank was not breached, but has retained as full a supply* as was considered prudent. The Panooburty tank is probably the one referred to by the Assistant Collector, as this is I hear the only one in the Survapully talook which has given way.

* About ⅓ or ¼th.

2. I inspected the Survapully tank† this morning, and found it almost full (⅞) The extensive repairs executed this year have stood very well indeed five; or six other tanks of less importance, which I saw in the course of my ride, were also full, and the Ryots appeared to be much pleased with the prospect of good Crops.

† Average Revenue Rs. 4104

No. 57. ORDER THEREON, No. 28; dated 4th January 1859.

Ordered that the foregoing letter be recorded.

(Signed) W. H. BAYLEY,
Acting Secretary to Government.
