To The Dy Chief Engineer
Northern Circles
Fort St George

Sir,

With reference to your orders as per margin, I have the honor to forward herewith 2 Estimates for constructing supports to Lightning Conductors for the Sebundy Barracks & Hospital at Nursipatam: one provides for cut stone Columns as shown in the enclosed Plan, & the other for teak wood supports according to Standard Plan — the latter being the cheapest & quickest put up, is the plan I would recommend to be adopted; but I have also estimated for the cut stone Pillars in case they should be preferred, but they would take some time to put up, and there is great difficulty in getting stone cutters to go to Nursipatam — I have entered the larger Estimate in my Budget List.

I have the honor to be
Sir
