Not to be folded or roughly handled

Proceedings of the Madras Government, Public Works Department, for the month of December 1859.

No. 147. Proceedings of the Madras Government, dated 19th December 1859, No. 2949.

1. In the order of August 3rd 1859 No. 1863 Captain Stoddard was nominated to the duty of considering and reporting the details necessary for carrying into effect certain projected measures. These were of three kinds; first the improvement of the town and port of Kákináda; second, the manufacture of salt on a large scale by an improved process, suggested by Colonel A. T. Cotton; third, the extension of the sale of salt up the Godávari, by the establishment of depôts, and other means.

2. The first of these objects was arranged for by the Honorable the Governor when at Kákináda in October last, and the execution of the measures thus resolved on has been entrusted to the executive officer of the range, under the Collector and the District Engineer.

Of the second, Captain Stoddard, after investigation, has given his opinion verbally to the Honorable the President, that no such change in the mode of making salt is at present expedient; in which the Government concur.

Captain Stoddard has been usefully employed on the third object, viz. the extension of the salt trade up the Godávari; the preliminary arrangements in view to the establishment of salt depôts have been settled, and the further services of an officer on this special duty are not at present necessary.

3. The Governor in Council has accordingly permitted Captain Stoddard to resume charge of his executive duties in the Godávari district. He now formally relieves him from the duties connected with the first two of the objects above enumerated; but he requests him to continue to pay such attention as may be necessary to the third object, jointly with his ordinary executive duties. His Excellency in Council has pleasure in acknowledging the zeal and intelligence displayed by Captain Stoddard in connection with the selection of sites for salt depôts, and on other points relating to the salt trade of the upper Godávari.

Proceedings of the Madras Government
Under date the 19th Decr. 59.

1. On the order of August 3rd 1859 No. 1065 Captn. Stoddard was nominated to the duty of considering and reporting the details necessary for carrying into effect certain projected measures. These were of three kinds: first the improvement of the Town and Port of Cákinádá; second, the manufacture of salt on a large scale by an improved process, suggested by Colr. A. T. Cotton; third the extension of the sale of salt up the Godávari by the establishment of Depôts, and other means.

2. The first of these objects was arranged for by the Honorable the Governor when at Cákinádá in October last

last, and the execution of the measures thus resolved on has been entrusted to the executive officer of the Range, under the Collector and the District Engineer.

Of the second, Capt. Stoddard, after investigation, has given his opinion verbally to the Hon. the President, that no such change in the mode of making salt is at present expedient, in which the Government concur.

Capt. Stoddard has been usefully employed on the third object, viz the extension of the salt trade up the Godáveri; the preliminary arrangements in view to the establishment of salt Depôts have been settled, and the further services of an officer on this special duty are not at present necessary.

3. The Governor in Council has accordingly permitted Capt. Stoddard to resume charge of his executive duties in the Godáveri District. He now formally relieves him from the duties connected with the first two of the objects above enumerated; but he requests him to continue to pay such attention as may be necessary to the third object, jointly with his ordinary executive duties.

H. E. in Council has plea-
sure in acknowledging the zeal and intelligence displayed by Capt. Stoddard in connection with the selection of sites for salt depôts, and on other points relating to the salt trade of the Upper Godáveri.
