Fort Saint George, Public Works Consultation of 8th March 1859.

Read the following Papers.

No. 66. From Colonel C. E. FABER, Chief Engineer; to J. D. BOURDILLON, Esq.,
Secretary to Government, dated 10th February 1859, No. 7754.

SIR,

I have the honor to submit for the orders of Government, the accompanying transcript of a letter received from the District Engineer, Nellore, No. 159, dated 24th Ultimo, forwarding an Estimate of Rupees 230, for constructing Buttresses to the Principal Sudder Ameen's Record Room at that Station.

2. In Extract Minutes Consultation, No. 1794, dated 2nd September 1858, the Government were pleased to authorize the re-roofing of the Record Room alluded to; but the District Engineer now reports that before the work could be commenced, the monsoon set in, and caused great injury to the building, rendering it necessary that Buttresses should be constructed to prevent any further damage.

3. Under these circumstances, I have the honor to solicit the sanction of Government to the additional Estimate now submitted, amounting to Rupees (230) two hundred and thirty,

Letter from Captain J. MULLINS, District Engineer, Nellore; to Colonel C. E. FABER, Chief Engineer, dated Camp Mootoocoor, 24th January 1859, No. 159.

SIR,

I have the honor to forward for sanction, an Estimate amounting to Rupees 230, for adding Buttresses to the Principal Sudder Ameen's Record Room at Nellore, and for substituting Teak wood joists for some of the old joists which are rotten.

2. The re-roofing of this building was sanctioned in Extract Minutes Consultation, No. 1794, dated* 2nd September 1858, but before the work could be commenced, the monsoon set in, and the old roof fell, when it was found that many of the joists which appeared to be sound at the time the Estimate for reroofing the building was framed, were unfit to be used again; and at the same time the south wall near the corner, cracked from the top nearly to the bottom. The walls are very high and the building is an isolated one, so that Buttresses are necessary to prevent any further damage.

No. 67. Memorandum from Colonel C. E. FABER, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 21st February 1859, No. 8089.

In acknowledging the receipt of the Official Memo. of the 15th Instant, the Chief Engineer has the honor to inform the Secretary to Government, that the new joists for the roof of the Sudder Ameen's Record Room at Nellore have been included in the Estimate, to supply the place of those found to be rotten and useless, when the building fell in, as stated in the District Engineer's letter, No. 159, dated 24th Ultimo, forwarded to Government with letter No. 7754, dated 10th Instant, and as entered at the foot of the Estimate which accompanied it.

No. 68. ORDER THEREON, No. 509; dated 7th March 1859.

Resolved to return to the Chief Engineer for correction, the Estimate received with his letter of the 10th February, No. 7754. That estimate purports to be for Buttresses to a building, but it includes joists for repairing the roof. A supplementary estimate for the latter should be sent up separately, with proper explanation.

2. The Buttresses may be proceeded with.

(Signed) J. D. BOURDILLON,
Secretary to Government.

N. 8089

Memorandum

For the consideration of the Secretary to Government

In acknowledging the receipt of the Official Memo: of the 15th Instant, the Chief Engineer has the honor to inform the Secretary to Government, that the new joists for the roof of the And. Amson's Record Room at Nellore have been included in the Estimate, to supply the place of those found to be rotten and useless, when the Building fell in, as stated in the District Engineer's letter N. 159 dated 24th Ultimo, forwarded to Government with letter N. 795th dated 19th Instant, and as entered at the foot of the Estimate which accompanied it.

Chief Engineer D. O. W.

'Judicial'

Sir,
I have the honor to forward for sanction, an estimate amounting to Rupees 230, for adding buttresses to the Principal Sudder Ameer's record room at Nellore, and for substituting teak wood joists, for some of the old joists which are rotten.

Chief Engineer's resolution No 31, 69 dated 8th September 1858.

2 The re-roofing of this building was sanctioned in Es. Min. Cons. No 1794, dated 2nd September 1858, but before the work could be commenced, the monsoon set in, and the old roof fell, when it was found that many of the joists which appeared to be sound, at the time the estimate for re-roofing the building was framed, were unfit to be used again; and at the same time the south wall near the corner, cracked from the top nearly to the bottom. The walls are very high and the building is an isolated one, so that buttresses, are necessary to prevent any further damage.

I have &c
J. J. John Mullins Capt
District Engineer Nellore

It is to be noted that the estimate for the repair of the roof of the Sudder Ameer's record room at Nellore, was sanctioned in Es. Min. Cons. No 1794, dated 2nd September 1858, but before the work could be commenced, the monsoon set in, and the old roof fell, when it was found that many of the joists which appeared to be sound, at the time the estimate for re-roofing the building was framed, were unfit to be used again; and at the same time the south wall near the corner, cracked from the top nearly to the bottom. The walls are very high and the building is an isolated one, so that buttresses, are necessary to prevent any further damage.

N. 7754

From, The Chief Engineer.

To, The Secretary to Government P. W. D.

Sir,

I have the honor to submit for the orders of Government

the accompanying transcript of a letter received from the District Engineer Bellare N. 159, dated 21st Ultimo, forwarding an Estimate of Rupees 230, for constructing buttresses to the Principal and Amens Room at that station.

In Ex. Insp. Cons. N. 1794 dated 2nd September 1858 the Government were pleased to authorize the re-roofing of the Record Room alluded to; but the District Engineer now reports that before the work could be commenced, the monsoon set in, and caused great injury to the building, rendering it necessary, that buttresses should be constructed to prevent any further damage.

Under these circumstances I have the honor to solicit the sanction of Government to the additional Estimate now submitted, amounting to Rupees (230) Two Hundred and Thirty.

I have the honor to be,
Sir
your most Obedt Servt
W. A. Colonel
Chief Engineer.

Central Office of P. W. D.
Fort Saint George, 10th February 1859.
W. B.

Resolved to return

to the Chief Engineer for
correction the Estimate re-
ceived with his letter
of the 10th February.

N^o 7754. That Estimate
purports to be for buttresses
to a building, but it
includes joints for repairing
the roof. A supplementary
Estimate for the latter

should
