Dated 12—3—1859.

Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 15th March 1859.

No. 66. Read the following letter from Colonel C. E. FABER, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 10th February 1859, No. 7766.

SIR,

With reference to Extract Minutes Consultation of the 8th Instant, No. 336, sanctioning an experiment for lengthening the Tunnel at the North East Angle of the Fortress, and calling upon me to report, I have the honor to state that I quite approve of the principle of the Plan proposed to be adopted by the Garrison Engineer, and have accordingly instructed him to begin the collection of the requisite materials for the speedy completion of the work on the Estimate, with which I am satisfied being passed by Government.

No. 67. ORDER THEREON, No. 561; dated 12th March 1859.

The Chief Engineer having in this letter expressed his approval of the Plan and Estimate prepared by the Acting Garrison Engineer of Fort Saint George for lengthening the Tunnel at the North East Angle of the Fortress as an experimental measure, the Right Honorable the Governor in Council sanctions for execution on emergency the Estimate in question amounting to Rupees (375) three hundred and seventy-five, and grants authority for the immediate execution of the work.

(Signed) J. D. BOURDILLON,
Secretary to Government.

No 1766

From The Chief Engineer.

To, The Secretary to Government
F.W.D.

Sir,

With reference to Exc: Irind: Cons: of the 8th Instant No 336 Sanctioning an experiment for lengthening the tunnel at the N.E. angle of the Fortress, and Calling upon me to report, I have the honor to state that I quite approve of the principle of the plan proposed to be adopted by the Garrison Engineer and have accordingly instructed him to begin the Collection of the Requisite materials for the speedy completion of the work on the Estimates with which I am satisfied being passed by Government.
