Fort Saint George, Public Works Consultation of 22nd March 1859.

No. 7. Read the following letter from Colonel C. E. FABER, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 11th March 1859, No. 8515.

SIR,

2 Letters and
1 Plan.

I have the honor to send in original, two letters and the Plan of the New Leper Hospital now under construction, and I request the favor of early orders from Government with the papers returned when no longer required.

Letter from DEVONSHER J. SCOTT, Esq., Acting Resident Engineer Madras Railway Terminal Works; to Captain H. W. HITCHINS, Civil Architect, dated 8th March 1859.

SIR,

I find that some New Buildings are now in course of erection adjoining the Leper Hospital, for the purpose of additional Wards in connection with that Institution, and I have been informed that these works are being constructed under your superintendence.

I have the honor to inform you that this Building is being erected upon land that has been already handed over, by Government, to the Madras Railway Company. I have, therefore, to request that these works so far as they encroach upon the Company's Property, be at once discontinued, and the land restored to its former state.

A Plan of the land handed over to the Railway Company can be seen by you at this Office.

Letter from Captain H. W. HITCHINS, Civil Architect, Presidency Division; to Colonel C. E. FABER, Chief Engineer, dated 10th March 1859, No. 186.

SIR,

In forwarding the accompanying copy of a letter from the Acting Resident Railway Engineer of the Terminal Works of the Railway, I beg to inform you that the Plans in this Office do not show that the site upon which the Wards of the Leper Hospital are being constructed is the Railway Property, and I have not deemed it advisable to discontinue the work.

2. I have written to this effect to the Resident Railway Engineer, whom I have requested to send a competent person to this Office to examine our records, and so satisfy himself that he is mistaken.

3. I forward herewith a Plan indicating the site of the New Leper Wards, which I beg may be returned as soon as convenient, as the work is under execution in strict accordance with that Plan.

No. 8. ORDER THEREON, No. 607; dated 16th March 1859.

This reference to Government is quite premature. The Civil Architect denies the claim of the Railway Officials, and has offered to satisfy them that it is unfounded. Till the proposed examination has been made and has failed, it is obviously useless to bring the matter before Government. Should it be necessary to address Government again on the subject, full particulars should be given.

(Signed) J. D. BOURDILLON,
Secretary to Government.

2 to boy

Contracting of Cons.
296 to March/59.

Observing that the land
preluded denies the claim
of the Railway Officers for
the site of the new depot. It
had been under construction,
and as the proposed excavation
would have been made and
has failed it is necessary to
bring the matter before Com.
and stating that if it be necessary
to add to the cost of the subject
full particulars should be
given.
