Not to be folded or roughly handled

Fort Saint George, Public Works Consultation of 22nd March 1859.

No. 76. Read the following letter from Colonel C. E. FABER, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 26th February 1859, No. 8170.

SIR,

I have the honor to forward for the information of Government, the accompanying copy of a letter from the District Engineer of Bellary, No. 355 of the 10th Instant, requesting that, instead of the Rupees 50,000, for which application* was recently made by me to Government, at his urgent and repeated solicitation, being placed at his disposal for the disbursement, during the remainder of the current Official year, on repairs of irrigation works in addition to the amount allowed in the Budget, Rupees 80,000 may be added to the sum entered in the Budget of 1859-60, under the head of repairs as he finds that the cash still available for repairs in his District is as much as he can spend this season.

2. The Rupees 5,000 granted in Extract Minutes Consultation of the 14th February 1859 No. 380, it thus appears will not be required; and with reference to the remarks contained in those orders, I take this opportunity of explaining, that although so early as the 29th October 1858, the District Engineer of Bellary reported the likelihood of a larger sum than was allowed in the Budget being required for repairs, in consequence of the severe damages many valuable Tanks in the Mudduck Seerah Talook had sustained during the heavy rains of the early part of that month; I refrained from addressing Government on the subject, pending the receipt of the full, and I am aware necessary information, called for from Captain Fisher in the orders noted in the margin, and that, only on the apparently urgent application of the District Engineer, forwarded through the Collector, and fully supported by him, and after the Estimates received in this Office for current repairs in Bellary had reached the sum of Rupees 1,13,424, did I consider that I should not be justified in longer delaying to recommend the grant of the additional funds so urgently pressed for.

Letter from Captain J. F. FISHER, District Engineer of Bellary; to Colonel C. E. FABER, Chief Engineer, dated Bellary, 10th February 1859, No. 355.

SIR,

I have the honor to acknowledge receipt of Extract from your Proceedings, No. 7644, dated 5th instant, I beg to request an application may be submitted to the Government to add Rupees 80,000 for repairs of Irrigation works for the Official year 1859-60, if the money is sanctioned for this year it can be of little or no use, as we shall not be able to draw it even for the month of March, there are sufficient funds sanctioned in the Budget for this year, which if applied generally will meet the heavy expenditure on Irrigation repairs for the present, but next year if the establishment for this District is placed on a proper footing, and an opportunity is allowed me to work out all the Estimates which have been prepared and to put the works into an efficient condition, the whole of that amount will then be required.

No. 77. ORDER THEREON, No. 644; dated 19th March 1859

In sending up his Budget Statement for 1860-61, Colonel Faber will propose for the Bellary District such an amount for repairs of Irrigation Works as he shall consider necessary and proper. He will be careful to consider the circumstances fully, and not adopt the District Engineer's recommendation unless satisfied of its justice.

2. The order of February 14th No. 380, granting 5,000 Rupees for Irrigation repairs in Mudduk Seerah Talook is cancelled.

(Signed) J. D. BOURDILLON,
Secretary to Government.

Sir,

Enclosure 1
Copy of letter

*9th Feb 1859 N^o 7736

I have the honor to forward for the information of Government, the accompanying copy of a letter from the District Engineer of Bellary N^o 355 of the 10th Instant, requesting that, instead of the Rupees 50,000., for which application was recently made by me, to Government at his urgent and repeated solicitation, being placed at his disposal for the disbursement, during the remainder of the current official year, on repairs of irrigation works in addition to the amount allowed in the Budget, Rupees 20,000 may be added to the sum entered in the Budget of 1859/60 under the head of repairs, as he finds that the cash still available for repairs in his District is as much as he can spend this season..

2

The Rupees 20,000 granted in Extract minutes Consultation of the 11th February 1859 N^o 380, if this appears will not be agreed, and with reference to the remarks contained in those orders, I take this opportunity of explaining

explaining, that although so early as the 29th October
1858, the District Engineer of Bellary reported in letter N° 215.
the likelihood of a larger sum than was allowed
in the Budget being required for repairs, in
consequence of the severe damages many
valuable tanks in the Muddekeerale talook
had sustained during the heavy rains of the
early part of that month. I refrained from
addressing Government on the subject,
pending the receipt of the full, and I am aware
necessary, information called for from Captain
Fisher in the orders noted in the margin, and
that, only on the apparently urgent application
of the District Engineer, forwarded through the
Collector, and fully supported by him, and after
the Estimates received in this office for current
repairs in Bellary had reached the sum of
Rs 1,13,424, did I consider that I should
not be justified in longer delaying to recom-
mend the grant of the additional funds
so urgently pressed for.
