expenses incurred for clearing the Cantonment of
Saint Thomas. Mount of Rank vegetation being
defrayed by Contingent Bills, but the Brigadier
represents that some person of competent
skill, is required to superintend the work, for, to
set Coolies to work to make drains in their
own way would be wasting money, and would
probably only carry the nuisance from one
place to another. The Police Officer at the
Munir, is held up by the Brigadier as a
specimen of the mistaken principles in ap-
pointing the Station Staff Officer to super-
intend works which appertain to the
P. W. Department. The expense for putting
this building in a safe state having been
estimated at Rs. 1300.

(Under these circumstances, I am
directed to request that instructions may be
issued to the P. W. Works, for the immediate
execution of all works that may be required
to keep the Cantonment in a sanitary state,
upon the application of the Brigadier
Commanding.)
