No. 26. Read the following letter from Colonel C. E. FABER, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 30th March 1859, No. 9139.

SIR,

I have the honor to submit for the sanction of the Right Honorable the Governor in Council, an Estimate for constructing a Verandah and Porch on the North East side of the Civil and Session Court House at Chittoor, amounting to Rppees (550) five hundred and fifty.

2. The present Verandah is a thatched pandal, to which a great slope has been given for the rain water to escape, and which greatly reduces the light in the Court room, as an obstruction by which great inconvenience is frequently felt in business, and the pandal itself is also stated to be in a very dilapidated condition. It is therefore proposed, that a more substantial Verandah with the addition of a Porch, be constructed of masonry in its stead. Under the circumstances stated above, I beg that the sum of Rupees five hundred and fifty may receive the early sanction of Government.

Letter from J. H. DOPPING, Esq., District Engineer of North Arcot; to Colonel C. E. FABER, Chief Engineer, dated Raneepett, 10th March 1859, No. 2434.

SIR,

Returning an Estimate for a Verandah to the Session Court at Chittoor, and requesting it might be countersigned by the Session Judge.

I have the honor to acknowledge the receipt of your Proceedings No. 8344 of the 4th of March 1859, subject as per margin, and now beg to enclose a copy of a letter this day received from the Session Judge, and at the same time to return the Estimate with his countersignature attached.

I also enclose copy of the first letter on the subject of the 18th October 1858, from which you will see the necessity of the work has already been explained to the Sudder Udalut by Mr. Harris.

Letter from G. A. HARRIS, Esq., Civil Judge of Chittoor; to C. F. CHAMIER, Esq., Acting Register to the Court of Sudder Udalut, Fort Saint George, dated Chittoor, 18th October 1858.

SIR,

I have the honor to submit for sanction, an Estimate for the construction of a Verandah and Porch on the North East side of the Civil and Session Court House. The Verandah now existing (there is no Porch) is in a dilapidated condition, the roof having been constructed of bamboo tied with rope; and the absence of a Porch is found to be very inconvenient, especially during the Monsoon.

The material of the present pandal if sold, will fetch about Rupees 5-4-0.

Letter from G. A. HARRIS, Esq., Civil Judge of Chittoor; to J. H. DOPPING, Esq., District Engineer of North Arcot; dated Chittoor, 9th March 1859, No. 99.

SIR,

In reply to your letter, dated 7th March 1859, I have the honor to return the estimate with my countersignature.

In regard to the necessity for the proposed improvement, I have the honor to state that at present on some days a sufficiency of light does not enter the room in which the Court is held, and business is consequently often interrupted. The existing thatched pandal is brought down so low, and I conclude necessarily so to secure a sufficient slope although this does not prevent the rain from pouring through it, that the light in the Court room is very much obscured.

Fort Saint George, Public Works Consultation of 12th April 1859.

I have also now to pass and my papers and boxes have to be conveyed through the sun and rain in order to get into the Court room. All these inconveniences will be removed by the proposed improvement, as well as protection afforded to the Monsoon side of the Record room.

I would further observe that white ants abound in the vicinity, and a thatched pandal with wooden supports can only last but a short time.

No. 27. ORDER THEREON, No. 827; dated 8th April 1859.

Referred to the Judicial Department.

Secretary to Government.
