Fort Saint George, Public Works Consultation of 12th April 1859.

No. 28. Read the following letter from Colonel C. E. FABER, Chief Engineer ; to J. D. BOURDILLON, Esq., Secretary to Government, dated 31st March 1859, No. 9182.

SIR,

I do myself the honor to forward for submission to Government the accompanying transcript of a letter from the District Engineer of Vizagapatam No. 965, dated 22nd February 1859, enclosing a Statement of additional sums required for repairs in that District for the current year.

2. It is represented by the District Engineer that in consequence of the amount applied for by him for Irrigation repairs having been reduced to Rupees 8,400 in the Budget, the additional sum of Rupees 2,000 now applied for is required to meet the outlay already incurred for the repair of strictly emergent works under that head.

3. With regard to the sum required for Buildings, Lieutenant Vertue admits, that, through an oversight, the amount necessary for the repair of the Salt Pans was not included in his prospective Estimate. This together with the additional sum required for the alteration of the Temporary Barracks, which is observed to be necessary in order to render the building more durable and permanent, amounts to Rupees 5,000, inclusive of the sum allowed for contingencies, the total amount therefore, for which Lieutenant Vertue requests sanction is Rupees 7,000.

4. Under the circumstances, I beg to recommend that Government will be pleased to sanction the additional amount, Rupees (7,000), seven thousand, represented to be necessary for current repairs in the District of Vizagapatam.

Letter from Lieutenant J. VERTUE, Acting District Engineer, Vizagapatam ; to Colonel C. E. FABER, Chief Engineer, dated Camp Waltair, 22nd February 1859, No. 965.

SIR,

With reference to your letter No. 7508, of 1st Instant, I have the honor to forward a Statement in the form called for, together with an explanation of the necessity existing for the supply of further funds.

2. First, with regard to works of Irrigation, had the sum originally entered in my Budget list been granted, it would within about 100 Rupees have covered the cost of repairs, but having been reduced to 8,400 Rupees, an additional sum of 2,000 Rupees is required to meet the cost that has been incurred for the repair of strictly emergent works than which, after the execution of the necessary ordinary repairs, no others have been undertaken.

3. Under the head of Buildings, I must admit that an oversight has occurred in that, while estimating the amount likely to be required for repairs of Buildings, the item of repairs of Salt Pans,* which is included under the above head was not taken into account. It certainly seems strange to include in the above the repair of Salt Pans which consists almost entirely of earth-work, and necessarily includes no masonry work whatever. Moreover I saw no reason for doing otherwise than following the average of former years, in which the amount estimated for repairs of Buildings has been usually put down at 2,000 Rupees.

4. In addition to the above amount required for the alteration of the Temporary Barracks here, will amount roughly to 1,200 Rupees (this amount will allow of alterations and improvements which will make the buildings much more durable and of a more permanent nature, than they are at present) and therefore allowing a few hundred Rupees for contingencies, I have put down the additional sum required on account of buildings at 5,000 Rupees.

* In this year amounting to about Rupees 3,500.

Fort Saint George, Public Works Consultation of 12th April 1859.

Statement shewing the additional sums required for Repairs in the District of Vizagapatam 1858-59.

No. 29. ORDER THEREON, No. 828; dated 8th April 1859.

The Governor in Council accordingly grants (7,000) seven thousand Rupees additional for repairs in the Vizagapatam District during the current year. But the Chief Engineer will explain the practice as to the repair of Salt Pans in that District; and state whether and in what respects it differs from that of other Districts.

Sir,

Enclosure 1
Copy of letter from
the Dist. Engineer
Vizagapatam N: 965
of 22nd Feb. 1859.
D: Statement.
annexed

I do myself the honor to forward for submission to Government the accompanying transcript of a letter from the District Engineer of Vizagapatam N: 965 dated 22nd February 1859, enclosing a statement of additional sums required for repairs in that District for the current year.

It is represented by the District Engineer that in consequence of the amount applied for by him for Irrigation repairs having been reduced to Rupees 8,400 in the Budget, the additional sum of Rupees 2,000 now applied for is required to meet the outlay already incurred for the repair of strictly emergent works under that head.

With regard to the sum required for buildings, Lieut. Vertue admits that there is an oversight the amount necessary for the repair of the Salt Pans was not included in his respective Estimate. This together with the additional

additional sum required for the alteration of the Temporary Barracks, which is observed to be necessary in order to render the building more durable and permanent; Amounts to Rupees 5000 inclusive of the sum allowed for contingencies, the total amount therefore for which Lieut. Tertue requests sanction is Rupees 7000.

Under these circumstances I beg to recommend that Government will be pleased to sanction the additional amount, Rupees 7000. seven thousand, represented to be necessary for current repairs in the District of Vijayapatnam.
