Fort Saint George, Public Works Consultation of 19th April 1859.

Read again Circular from the Government of India, dated 4th December 1858, No. 6146, and recorded in Consultation 18th January 1859.

No. 70. Read also the following letter from Colonel C. E. FABER, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 21st February 1859, No. 8052.

Sir,

With reference to your Official Memorandum under date the 9th Instant, calling for a Return of Estimates sanctioned in this Office during the month of January 1859, I have the honor to forward herewith a List of the Current and Special Repairs sanctioned during that period, prepared according to the Form No. 5 appended to the Classification Report received from the Supreme Government.

2. The above List includes Estimates reported to the Central Office to have been sanctioned by Local Officers as well as those approved and sanctioned during the same month by the Superintending Engineers and myself.

3. I beg to explain that this Office possesses no information as to what Estimates appertain to Current and what to Special Repairs, as no such distinction has been hitherto recognized in this Presidency, although the sum sanctioned by Government in excess of that provided in the Budget of the Current year, has been placed by me under the latter head in the Statement now forwarded.

No. 71. ORDER THEREON, No. 907; dated 16th April 1859.

1. Ordered that the List of Repairs submitted with the above letter be embodied in a General Return of Estimates sanctioned by this Government during the month of January 1859, and that the latter document be forwarded to the Government of India.

2. Colonel Faber observes that he possesses no information as to what items of those entered in his List appertain to Current and what to Special Repairs. He will perceive from para. 62 of the Classification Report that the former term is meant to "include all the usual periodical repairs of Works and Buildings maintained at the charge of Government" for which provision was made in Statement No. 3 of the Budget and that by the latter is understood "those repairs arising from unforeseen casualties caused by fires, floods, &c." The terms being thus clearly defined, there can be no difficulty in keeping the sanctions for the two classes of repair distinct from each other. Lieut.-Colonel Bell will therefore issue the necessary instructions to the local Officers in view to this being done; and care should be taken to observe the same distinction in the Central Office.

3. The Government observe that the amount sanctioned for minor new works of less than 500 Rupees each, previously to the month of January, is not shewn in the present Statement, they request that this information may be given in future Returns.

4. Adverting to the note at the foot of the Statement, that no accounts are submitted to the Central Office monthly of the outlay from the discretionary grants allotted to each District, or from the authorized maintenance allowances for Roads, the Government would remark that all that is required is, that the List should shew in the proper columns the disbursements sanctioned out of the two sources in question, during the month, and previous to that period from the commencement of the official year. The actual expenditure in either case need not be stated.

5. The Chief Engineer will take measures to procure all the requisite information from the Districts, in time to enable him to forward to Government future similar Statements, prepared in a complete form, by the 10th of each month.

(Signed) J. D. BOURDILLON,
Secretary to Government.

List

With reference to your
official memorandum under date
the 9th instant calling for a Return
of Estimates sanctioned in this Office
during the month of January 1859
I have the honor to forward herewith
a List of the Current and
special repairs sanctioned during that
period prepared according to the form
Nos appended to the classification
Report received from the Supreme
Government.

2 The above List includes
Estimates reported to the Central
Office to have been sanctioned by
Local Officers as well as those
approved

approved and sanctioned during the
same month by the Superintending
Engineers and myself

3. They to explain that
this Office possesses no information
as to what Estimates appertain to
current and what to special repairs
as no such distinction has been her-
etofore recognized in this Presidency,
although the sum sanctioned by
Government in excess of that
provided in the Budget of the
Current year, has been placed by
me under the latter head in the
Statement now forwarded.

Extract from the Minutes of Consultation
Under date the 16th April 1859

Read again circular from the Govt.
of India dated 7th December 1858 N^o 6146 &
recorded in Consultation
18th January 1859.

Gl
IP

Read also the
following letter from the
Chief Engineer.

NW

(File enter 21st February 1859
N^o 8052)

1. Ordered that the
List of repairs submitted
with the above letter
be embodied in a General
Return of Estimates
sanctioned by this Govt.
during

20
during the month of
January 1859, and that
the latter document
be forwarded to the
Government of India.

2 Colonel Faber
observes that he possesses
no information as to
what items of those
entered in his List
appertain to Current
& what to Special repairs.
He will perceive from
para 69 of the Classi-
fication Report that
the former term is
meant to include
all the usual peri-
odical repairs of
works and buildings
maintained at the
charge of Government
for which provision was
made in Statement

No.

29^a
No. 3 of the Budget &
that by the latter is
understood those repairs
arising from unforeseen
casualties caused by
fires, floods &c. The
terms being thus clearly
defined, there can be
no difficulty in keeping
the sanctions for the
two classes of repair
distinct from each other.
Colonel Faber will
therefore issue the
necessary instructions
to the local Officers
in view to this being
done, ^{and care} should be taken
to observe the same
distinction in the Central
Office.

3 The Government
observe that the amount
sanctioned for minor
new

new works ^{of less than} ~~more than~~ 500
Rupees each, previously
to the month of Jan^y,
is not shown in the
present statement; ~~but~~
they request that this
information ^{may} be given
in future Returns.

4. Adverting to the
note at the foot of the
statement, that no
accounts are submitted
to the Central Office
monthly of the outlay
from the discretionary
grants allotted to each
District; or from the
authorized maintenance
allowances for roads,
the Government would
remark that all that
is required is, that the
list should show in
the

the proper columns the
~~disbursements~~ ^{during} sanctioned out
of the two sources in
question, ~~for disburse-~~
~~ment~~ during the month
and previous to that
period from the com-
mencement of the offi-
-cial year. The actual
expenditure in either
case need not be stated.

5. The Chief Engr^g
^{The} will ^{take measures to} procure all requisite
information from the
Districts, in time to
enable him to forward
to Govt. future similar
statements, prepared
in a complete
form, by the 10th of
each month.

Ordered that
