Fort Saint George, Public Works Consultation of 19th April 1859.

No. 79. Read the following letter from Lieutenant Colonel J. H. BELL, Chief Engineer; to J. D. BOURDILLON, Esq., Secretary to Government, dated 15th April 1859, No. 9599.

SIR,

With reference to Extract Minutes of Consultation No. 699, dated 24th Ultimo, I have now the honor to forward List No. 1 or Gradation List, giving the entire Engineering and Upper Subordinate Establishments of the Department of Public Works, corrected up to the 15th Instant.

2. Although a Circular with copy of the order of Government above quoted, together with a supply of blank forms was despatched to the several Districts on the 28th Ultimo, and every promptitude of reply enjoined, I regret to have to inform Government that the only Officers who have furnished the information required to enable the Central Office to compile No. 2, or the District List, are those marginally named. The Civil Architect and District Engineer of Nellore having sent up their Returns in an incorrect and incomplete form, it was found necessary to return the Lists of those Officers.

3. Looking to these delays, and the possibility of mistakes involving still further hindrance in the compilation of the List, I would beg that I may be allowed to defer the submission of No. 2 or General District List, until the close of the half-year ending 30th June, by which date it is hoped a complete and accurate List will be put before Government together with a revise, corrected up to the same date, of No. 1 or Gradation List of the Engineering and Upper Subordinate Establishments.

No. 80. ORDER THEREON, No. 912; dated 18th April 1859.

The Chief Engineer will postpone the submission of the General District List of the Department till after the close of the current half-year. Indeed the preparation of the List for the first quarter of the year was enjoined chiefly with the object of ensuring accuracy in the half year's List.

(Signed) J. D. BOURDILLON,
Secretary to Government.

There was a tradition that
the entire Engineering and
Mines establishment, both in
front of the D. C. H. are ready
to the 18th instant and agree
to continue to deliver the study
mission of the general relative
that required by that matter
the close of the half year
ending 30th June 1859.

The image displays a highly textured, high-contrast black and white surface. It appears to be a scan of a physical material, such as a book cover or endpaper, characterized by a dense distribution of small, dark, irregular spots and streaks. These markings are scattered across a light, grainy background, creating a complex, almost abstract pattern. The overall effect is one of significant wear, damage, or perhaps a specific artistic texture. There are no discernible figures, objects, or text within the image.
