*Proceedings of the Madras Government, Public Works Department,
from 30th April to 3rd May 1859.*

No. 1. Read the following letter from Lieutenant-Colonel J. H. BELL, Chief Engineer ;
to J. D. BOURDILLON, Esq., Secretary to Government, dated 29th April 1859,
No. 9912.

I have the honor to submit for the sanction of Government an Estimate amounting to Rupees (370) three hundred and seventy, for raising the walls and renewing the roof of the Apothecary's at the Monegar Choultry.

1 Copy of a letter from the Civil Architect
No. 274, dated 7th April 1859.
1 Abstract Estimate Rupees 370.

2. The Estimate in question has been prepared by the Civil Architect on the requisition of the Treasurer of the Institution, and as the Apothecary is removed to another Building owing to his own quarter's being in a dangerous state, and as the other repairs ordered in Extract Minutes Consultation No. 1791, dated 2nd September last, are being carried out at present, I beg to recommend that the above work may also receive the early sanction of Government in order that it may be proceeded with simultaneously with the other repairs at that place.

Letter from Captain H. W. HITCHINS, Civil Architect at the Presidency ; to Lieutenant-Colonel J. H. BELL, Chief Engineer, dated 7th April 1859, No. 274.

The accompanying Estimate amounting to Rupees 370, has been made at the instance of the Treasurer to the Monegar Choultry, and as the Apothecary has been removed to another Building from the opinion I formed of his present habitation being in an unsafe state, I have the honor to request that the work may be sanctioned on emergency.

2. The Treasurer moreover mentioned in his letter to me, that if the Government refused to sanction it, the Directors of the Monegar Choultry would meet the expense of repairing the Apothecary's Quarters, but I do not think that this is very likely ; for other repairs, on rather a large scale, are being made at the present time at the expense of Government.

No. 2. ORDER THEREON, 30th April 1859, No. 999.

Referred to the Public Department for decision whether the cost of the repair shall be paid by Government or by the Directors of the Institution.

(Signed) J. D. BOURDILLON,
Secretary to Government.

Indebted?

The British Government is estimated
amounting to £2,370 for raising the
wells and securing them of the
"Spa" the city's public water supply.
The Mayor's Council and Mayor also that
it is necessary to have the water supply
of the city in order that the water supply
may be raised in a similar manner
with the other parts of the city.
The water supply is now being
increased at that place -
